What Papers Do You Read?

H. B. Geer tells of a farmer who once said: "I don't believe in your book learning, study and all that; I'd rather learn by experience." He did. That man a couple of years later lost out as a farmer and moved to town, where he made a very poor living working by the day and doubtless working for men who studied and read and thought about their business, and applied in it, as far as practicable, that which they had learned from books, periodicals and the experience of others given therein. It is the men who read; the men who study; the thoughtful men who support the farm journals. They are the men who read books and papers on agriculture, fruit growing, poultry culture and bee-keeping. They are the men who stand in the front rank; the leaders in their respective communities. These men have found that it pays to read and study on any subject in which they are interested and apply their knowledge in their everyday work.

A WAY OPEN.

Many an Independence Reader Knows It Well.

There is a way to convince the greatest skeptic. Scores of Independence people have made it possible. The public statement of their experience is proof of the like of which has never been produced before in Independence. Read this case of it given by a citizen:

Zed Rosendorf, merchant, Main St., Independence, Ore., says: "For ten years I was troubled with kidney complaint and finally became so bad that I was forced to walk in a stooped position. My kidneys were disordered and on account of the frequency of the secretions, I was forced to arise almost constantly in the night. Often I would have to sit up, not being able to lie in any comfortable position. My limbs became swollen and there was a puffiness beneath my eyes. I doctored and tried everything but received no relief until I finally heard of Doan's Kidney Pills. They helped me from the first, and I am today free from kidney complaint. I believe there is nothing in the world for kidney trouble equal to Doan's Kidney Pills."
