## What Papers Do You Read?

?

H. B. Geer tells of a farmer who once said: "I don't believe in your book learning, study and all that; I'd rather learn by experience." He did. That man a couple of years later lost out as a farmer and moved to town, where he made a very poor living working by the day and doubtless working for men who studied and read and thought about their business, and applied in it, as far as practicable, that which they had learned from books, periodicals and the experience of others given therein. It is the men who read; the men who study; the thoughtful men who support the farm journals. They are the men who read books and papers on agriculture, fruit growing, poultry culture and bee-keeping. They are the men who stand in the front rank; the leaders in their respective communities. These men have found that it pays to read and study on any subject in which they are interested and apply their knowledge in their everyday work.

is published for this class of farmers and stock raisers. Every week it contains articles by men who KNOW. Practical experience is what counts and you get it from others through the Pacific Homestead, published at Salem, Oregon, each Thursday. Subscription price \$1 per year, sample copy free.
