

MAPPING OUT THE CAMPAIGN

ANOTHER ATTRACTIVE TALK ON ADVERTISING

Henry Herbert Huff, Whose Advertising Talks—Copyrighted by American Press Association—Gives Many Good Suggestions.

"Mr. Business Man, let us suppose that you have resolved to make a success of your advertising—that you are going after business in earnest. First of all, lay out the campaign.

"The amount to spend is the first problem. I dislike to set any standard, as so much depends on local conditions—population, competition and the line of business. I should say that one or two per cent of total sales ought to bring good returns for a country store. Contract for a certain number of inches of space to be used during the year. See to it that you have the privilege of changing the ads. very issue.

"The size of the space to be used is another hard knot. It is wise to start with a small space and increase it gradually. Advertise continuously. Use large space for selling events of extreme importance. Use space liberally in dull seasons as during paying ones. Advertising is a business for business men. You must force business artificially if you want to keep busy all the time.

"It is most important to study conditions. Endeavor to find out (1) what territory trade may be drawn from; (2) how many families are to be reached by the local papers (compile a mailing list and send copies of your ad to these names); (3) where the strength and weakness of competitors lie; (4) what advantage you are able to offer patrons; (5) the characteristics of the people in the community (nationality, intelligence, occupation, wealth, etc.).

"Study your most successful competitor. Learn what goods he sells and who buys from him. Pattern after him as much as you choose. Endeavor to give your patrons even better advantages. Study customers. You probably know from experience the goods that sell best in your vicinity. If you understand the wants of your patrons, you should have little difficulty in advertising what they like in the way they will be interested.

"Women like detail. No fact regarding a piece of goods is so unimportant as to be overlooked by them. Describe everything fully. Women are ordinarily good judges of value, and price is regarded as of first importance. Dwell on the three, price and style first.

"Men are the opposite. They seek the facts about goods in the briefest way. They do not take buying so seriously. A bit of humor often pleases them.

"Plan your advertising months ahead of time. Buy up special lots to use as leaders in the future. Keep a notebook for ideas and jot them down. Have copy ready for ads. several weeks ahead. Take time to write and do your best. Make the most of your present opportunities. Plan and execute."

HOME FROM THE FAIR

Uncle John Expressed His Opinion of an Automobile

Johnny's father, who resides in one of the remote districts of Polk county made a trip to Portland and the Seattle fair recently. On his return he was describing to those at home many of the great wonders he had seen wattle away and among the many other newfangled things he mentioned the automobile.

"What is an automobile, father," inquired little Johnny, who had been intently listening to his father, with eyes, mouth and ears wide open.

"An automobile, my son," replied the father, "is a large iron and rubber conveyance for transforming gasoline into speed, luxury, excitement and obituaries. It consists of a handsome leather upholstered carriage body mounted on fat rubber-tired wheels and containing a gizmo full of machinery suffering from various ailments. It is the speediest and most stylish form of transportation known. It has a record of over 100 miles an hour and costs over \$1000 a minute. It can transport seven people from the front porch to the police station, the bankruptcy courts or the golden gates in less time than any other known method.

Cholera Infantum Cured

"Something like two years ago my baby, which was then about a year old, was taken seriously ill with cholera infantum, vomiting and purging profusely," writes J. E. Dempsey of Dempsey, Ala. "I did what I could to relieve her but did her no good, and being very much alarmed about her went for a physician but failed to find one, so came back to Elder Ross & Carter's store and Mr. Elder recommended Chamberlain's Colic, Cholera and Diarrhea Remedy. I procured a bottle of it and went home as quickly as possible and administered to her as directed and she was relieved in fifteen minutes and soon cured her entirely." For sale by P. M. Kirkland.

RINGLINGS TO SHOW IN SALEM

Ringling Brothers' World's greatest Show is to visit Salem Thursday, August 26. They come this season with new laurels won at Madison Square Garden in New York because of the unprecedented excellence of their performances. It is in all respects the very best circus that was ever organized, and the two performances that will be given in Salem will be given exactly as they were given in Manhattan, not the slightest change having been made since the season opened there.

There are no less than seven sensations on the program, any one of which is enough to give a circus distinction. There are the wonderful Schumann horses which walk on their hind legs, drink from large glasses and roll each other around in huge beer barrels, elephants that use the telephone, conversing with each other over the wire from one end of the main tent to the other; the thrilling double summersaulting automobile act performed by a young French girl; Robidello, the Mexican wire wizard; the wonderful Lynch family of acrobats and 100 other acts that are new to America.

Disagreeable at Home

Lots of men and women who are agreeable with others get "cranky" at home. It's not disposition, it's the liver. If you find yourself that you feel cross around the house, little things worry you, try a bottle of Ballard's Herbine and put your liver in shape. You and everybody around you will feel better for it.

On Way to Fair

Another San Francisco party passed through town last Friday in an auto en route to Seattle to attend the fair. They were traveling in a large touring car of the Studebaker make and report having a jolly trip so far. They went via Portland where they expected to hang up for a few days seeing the sights.
