RHEUMATIC FOLKS

Are You Sure Your Kidneys Are Well?

Many rheumatic attacks are due to uric acid in the blood. But the duty of the kidneys is to remove all uric acid from the blood. Its presence there shows the kidneys are inactive. Don't dally with "uric acid solvents." You might go on till doomsday with them, but until you cure the kidneys you will never get well. Doan's Kidney Pills not only remove uric acid, but cure the kidneys and then all danger from uric acid is ended.

F. A. Sutton, 1125 Water street, Salem, Ore., says: "For ten or twelve years rheumatism and kidney trouble were the plague of my life. I could hardly move, owing to the lameness in my back and had to come into the city to doctor for the trouble. Nothing seemed to bring me more than temporary relief and I was in bad shape when I procured Doan's Kidney Pills. They benefited me at once and when I had taken the contents of three boxes, I was free from every symptom of my old trouble. My health is now better than in years."
