## INTERESTING STATE NEWS

The new terminus of the Sumpter valley railroad is sixteen miles nearer the beautiful strawberry valley of upper John Day.

According to the Princeton Review the vacant wheat lands of central Oregon are being filled up at an unprecedented rate.

District Attorney Mulkey, of Jackson county, made a round up recently of the "blind piggers" in that county with the result that he secured thirty indictments.

If the Cottage Grove Leader is right it pays to plant shade trees. They increase the beauty of the land apace, attract buyers and return value in various ways.

The McMinnville city council has passed an order prohibiting the sale of malt liquors in that city. The object of the action is for the purpose of knocking out the near-beer joint nuisance.

The city council of Corvallis, after hearing remonstrances, ordered sixteen blocks of street paved, the vote being unanimous. Bids will be called for at once. Objections were made by only twenty per cent of the property owners.

Efforts on Rogue river are being made to establish electric experiment with a view to seeing if plants and time with artificial light, and do so fruits cannot be made to work over at a rate which will prove commercially profitable.

The will of Perry Hyde, who recently passed in his checks at Harborsburg, has been filed for probate. The estate valued at \$30,000 is bequeathed to his wife as long as she stays single or dies. In case she remarries it goes to his children.

Medford Tribune: A car of Medford Bartlett's from the Burrer orchards sold Tuesday in New York City for \$4.25 a box, the record price for Bartlett's this season. This is \$3.25 a box f. o. b. Medford. Two other cars of Bartlett's from the same orchard reached New York today, and they are the last of the season's shipments. Equally high or higher prices are expected, as Bartlett's are very scarce and the demand is unusually heavy on account of the Hudson celebration.

The Southern Pacific railroad bridge which is now being built across the south Santiam river at Lebanon and on which work was commenced last week, will be one of the longest bridges in this part of the state. The bridge proper will be 360 feet long, and there will be a trestle 2,000 feet long on the west end of the bridge. There will be two steel spans, each 180 feet long, resting on concrete piers. It is estimated that the bridge and trestle will cost about \$100,000.

Roseburg has been presented with and has accepted a proposition from Kuettner & Haas, railroad builders, to construct an electric road from that city to Marshfield via Myrtle Point and Coquille City. All they ask is that the people of the territory thus to be traversed, make the surveys and secure the rights of way. These railroad builders put up a gilt edge guarantee in the sum of \$100,000 to build the road and have the cars running over it within twenty-four months or, failing to do so, forfeit the \$100,000. This is a railroad proposition of the genuine business sort and one that the people in that territory will probably take hold of.

"I take pleasure in saying that I have kept Chamberlain's Colic, Cholera and Diarrhoea Remedy in the family medicine chest for about fifteen years, and have always had satisfactory results from its use. I have administered it to a great many traveling men who were suffering from troubles for which it is recommended, and have never failed to relieve them," says J. C. Jenkins, of Glasgow, Ky. This remedy is for sale by P. M. Kirkland.

Will Hold Special Election.

The county court of Marion county has ordered that a special election be held on November 2, 1909, for the purpose of determining whether or no intoxicating liquor should be sold in Horeb precinct. The election was called on a petition signed by twenty-two legal voters and taxpayers of the district.

### To Exist

is to stay on a farm with your nose down on the grindstone year after year, making barely enough to tide you over from one crop until another, or working in a prime Orchard part of the season for someone else to make enough to run your farm the next year. Are you in this class? If so, get out of the rut. Get up onto the trail and kick up a dust.

### To Live

is to plant your farm out into an Apple, Pear, Peach, Prune or Cherry Orchard and raise something for which the world is crying and for which it is willing to pay. A good Orchard is the best real estate agent you ever had if you want to sell, and the best income producer when you want to live on Easy Street. For prices on fruit trees write to
