

The Oriole Gold Mining Co.

An Oregon Corporation—Property in Josephine County, Oregon

CAPITAL STOCK

\$1,000,000.00

OFFICE: 304 United States National Bank Building, SALEM, OREGON

B. F. Rowland, President, Salem, Or. O. S. Blanchard, Sec., Grants Pass.
 J.C. Mattison, Vice-Pres., Grants Pass. G. W. Donnell, Treas., Grants Pass.

A High Dividend Getter An Established Fact

The company invites the public in general to investigate one of the best mining propositions ever brought to their notice. A proposition that is above mere speculation. The officers of the company are men of professional and business standing, known throughout the state of Oregon. Not one of them is in any sense a speculator. They are conservative men. Men of honor and integrity, who will see that the business pertaining to the operation of the mine is conducted in the best and most economical way, and who will care for the interests of the SMALL INVESTOR as well as those of the GREATER INVESTOR. Mr. J. C. Mattison, the manager, is a practical mining man of 20 years of actual mining experience. He is thoroughly familiar with every department of mining work and is therefore especially qualified to manage the mine. We conscientiously hold out to all investors with us a certainty of large immediate profits and the hope perhaps of a fortune for their investment in the future. WE WOULD URGE ALL AND EVERY ONE TO READ CAREFULLY THIS PAGE ANNOUNCEMENT. It will, anyhow, interest you.

Points That Will Convince You

Capable and honest management is the best protection the shareholders in any company can have.

Opportunity knocks at your door.

This is one proposition that courts the closest investigation and is one of the few mining enterprises that is positively meritorious.

Don't invest blindly—INVESTIGATE.

The CRIPPLE CREEK of Oregon.

The great fortunes honestly made have, with few exceptions, been acquired by taking advantage of the great resources of nature. Her lands, forests and minerals.

There is no discount to those who pay in full. The company does not need the money all at once.

No investment equals the returns of the ores which carry high values in gold and silver.

You are not invited to invest your money in a prospect.

No bonds. No preferred stock. Buy stock in a producer where chance is eliminated. You take no risk when buying stock in a company owning proven territory.

\$1200.00 every month is going into the development of this property.

All the risks incident to mine making have been assumed by the present stockholders. Those who buy now will share equally in the profits, and have the advantage of getting into the enterprise after it has been established on a basis more secure than any other manufacturing business.

We stand ready to furnish absolutely satisfactory evidence of the value and the conservatism and integrity of the management. Practically all of the present stockholders have invested after satisfying themselves on the ground of the merits of the mine and the business standing of the men in charge.

The stock is nearly all contracted. About 300,000 shares sold in Salem since September 27. If you want it, better do it now.

On the five claims of this company a great shipper and gold producer has been developed. Three tunnels have been driven, opening up large bodies of both milling and smelting ores. The mine is made. Production has begun. We are now taking out ore to ship to smelter. But this ore can be handled much more economically at the mine as soon as we have the necessary equipment. With a mill we can cut out the greater part of the transportation charges and greatly increase the earnings of the company.

Our capitalization is a conservative one and back of it is a fully developed mine in shape to maintain a continuous production not to mention a large acreage of undeveloped ground with practically inexhaustible deposits of lower grade ore.

At 15 cents per share the stock affords an opportunity for profitable investment that demands instant attention.

What the shrewd investor of today demands is a company with a conservative capitalization based on a big property. This is precisely the proposition open in the Oriole.

With all the machinery on the ground that will be needed until we are ready to purchase the milling plant, with all bills paid to date—and no debts incurred, and with \$500,000 in the treasury, with an absolutely clear title and a clean bill of health—the Oriole has a right to claim to be in a first-class condition and ask the confidence of the public.

TAKE UP THIS BONA FIDE OFFER

We have not yet paid any one's expenses to mine for the purpose of selling stock, nor do we expect to do so, but we are willing to make the following offer: We will go with any interested and honest individual or party to the property, stay long enough to make a thorough and critical examination of every part, and if the property is not in every particular as we represent it we will defray all the expenses of the trip and give each individual \$5.00 per day for time spent on the trip. This is not intended for a bluff but is a bona fide offer made in good faith.

SMELTER RETURNS

Actual returns from ore in carload lots shipped to Tacoma smelter:
 6.5 tons from No. 1 tunnel,
 \$184.85 net per ton\$1188.95
 17.72 tons from chute between
 No. 1 and No. 2, \$203.64
 net per ton\$3698.50
 15.47 tons from No. 2 tunnel,
 \$224.58 per ton\$3475.71
 Total, 39.31 tons; average,
 \$210.42 net per ton\$8273.16

Entire 40 feet in No. 2 tunnel assay \$23.40 and \$27.60 per ton. Other assay values at lower levels run much higher: 30 feet below No. 2 tunnel assay \$377.80; No. 3 tunnel, 108 feet below No. 2 tunnel, shows assay value \$785.80 per ton.

TEAR OFF THIS BLANK AND MAIL IT TODAY WITH YOUR REMITTANCE,

.....1910

Mr. B. F. Rowland, President Oriole Gold Mining Co., Salem, Oregon.

I do hereby agree to purchase from you shares of the capital stock of Oriole Gold Mining Company, a corporation organized under the laws of Oregon, at the price of Fifteen Cents per share, and do hereby agree to pay for same as follows: \$..... on the execution hereof and the balance in nine monthly installments.

I do further agree that time shall be deemed the essence of this agreement and that at your option you can cancel this agreement at any time after a default of thirty (30) days in the payment of any of said installments; provided, that should you exercise such option, you shall deliver to me such number of shares of said stock as I may have paid for prior to such default at said price of Fifteen Cents per share. (Executed in duplicate.)

 President.

MINING MAN TALKS

J. C. Metcalf, a mining man of reputation and wide experience, once said in an interview: "Some day there will be a mining boom in Southern Oregon. Thunder Mountain, Klondike, or any other place cannot beat Southern Oregon. The millions of placer gold that have been taken from the ground, and the gold that is being mined today in almost every gulch, is evidence that there are vast storehouses somewhere from which so much gold has been washed. When once it is shown, as will be done sooner or later, that steady values increase with depth, you will see a bigger gold excitement in this part of the country than there has been in any place boomed."
