STATE RAILWAY DEVELOPMENTS

An interurban service that is designed to meet the needs of the cities of the state has just been announced by the Harriman lines. Beginning this week, gasoline motor cars will be put in service on the main line of the Southern Pacific between Ashland and Grants Pass and another on the Springfield branch between Albany and Springfield. Another car of the same type will be put on between Pendleton and Umatilla on the O. R. & N. within the coming week. These motor cars are designed to handle local business in the territory they cover and serve the different communities much in the same way as interurban electric trains. They have been found very convenient wherever tried and will no doubt aid the development of the districts served to a great extent.

The Great Northern Railway plans to run its crack limited train into Portland by June 1, using the Union Pacific and Northern Pacific tracks by virtue of the traffic agreement existing between the Hill and Harriman lines in the northwest. This will mean the inauguration of additional train service between Portland and Puget sound points, as well as from this city to the east.

Saved from the Grave

"I had about given up hope, after nearly four years of suffering from a severe lung trouble," writes Mrs. M. L. Dix of Clarksville, Tenn. "Often the pain in my chest would be almost unbearable and I could not do any work, but Dr. King's New Discovery has made me feel like a new person. It's the best medicine made for the throat and lungs." Obstinate coughs, stubborn colds, hay fever, la grippe, asthma, croup, bronchitis and hemorrhages, hoarseness and whooping cough, yield quickly to this wonderful medicine. Try it. 50c and \$1.00. Trial bottles free. Guaranteed by all druggists.

MEANS MUCH TO PORTLAND

Portland will have another great flour mill soon. Balfour, Guthrie & Co., wheat and flour exporters, have completed plans for erecting a big mill at the foot of Tenth street on the Portland water front. It is expected to be ready for operations during the coming fall and will cost about \$250,000. Plans provide for a combined mill, wharf and elevator. The contract for the wharf structure has already been let. The mill will be reached by ocean steamers and by railroad tracks as well. It will be operated by electric motors and will be one of the most modern flour milling plants in the country. Its daily capacity will be about 1000 barrels of flour.

Best Treatment for Colds

"Most ordinary colds will yield to the simplest treatment," says the Chicago Tribune, "moderate laxatives, hot foot baths, a free perspiration and an avoidance of exposure to cold and wet after treatment." While this treatment requires considerable attention, it is not better to buy your cold to an old reliable preparation like Chamberlain's Cough Remedy, that is famous for its cures of colds and can always be depended upon?
