McMinnville turned out in full automobile force yesterday, hitting Independence at 10:30. The delegation was the largest ever got together from any Willamette valley town, of business men. There were twenty-three cars in the turnout and the party consisted of 107 people, all business men and property holders of that city, and their wives and families.

To Show During Race Meet

C. A. DeGrace, the advance agent of the Frank Miller Amusement Co., was in town last week arranging to have his amusement company show here during the race meet.

Mr. DeGrace claims that Mr. Miller is giving more free acts than any other traveling amusement company of its kind in the country. They have several high class and entertaining shows which are run on a strictly moral basis. Among them is the Watermelon Trust, a show containing ten colored people who give a very pleasing entertainment; the Electric Show featuring the famous Fire Dance, which is a great novelty; the Mystery of Damascus and occult mystery under the direction of Mr. Sam Adams direct from France; and last but not least, the Steam Riding Gallery to amuse the children. Mr. Miller pays special attention to the ladies and children. There will also be a guaranteed balloon ascension mornings and evenings.

To whom it may concern: I don't want anyone to credit me until I ask them to. Mrs. M. E. Connett.

SAYS "BELL" IS TO MAKE NOISE

Editor Enterprise—In Mr. Bell's article, published in your issue of 13th inst., he says "all that is in this interview has taken place or is being done or in prospect in the immediate future" instead of "are being done" as stated in his interview with the Times-Gazette reporter and had he so stated in his interview with the reporter, I daresay no one would have taken any exceptions to the article, certainly not myself, but there is quite a material difference between doing things, and merely talking about them. There were no exceptions taken as to what has been or is being done and I expect to see all the improvements mentioned, and more in the future and I took exceptions to the article as published to prevent laboring men and others coming here under a wrong impression. It is all right for a man leaving a town with a good impression, but if he goes there under a misrepresentation and finds he has been "stung" the effect is quite the reverse. In your editorial of same date you excuse Mr. Bell by saying he no doubt assumed from the amount of gravel on the streets that we had been paving but a man of Mr. Bell's education should know the difference between macadamizing and graveling. However, it is naturally expected of a "bell" to make a noise. Now as to my being a knocker, beg to say in self defense that I have subscribed for every enterprise started in Independence, with two or three exceptions, for the past twenty-five years and it is up to Mr. Bell to show what he has done for his home town.
