pledge to it our loyal and enthusiastic support.

Resolved, that we indorse the wise, patriotic and progressive administration of President Taft, and that we rejoice in the fact that the pledges made by the Republican party in its National platform of 1908 have been faithfully kept.

Resolved, that we believe in the rigid enforcement of the anti-trust legislation now on the statute books, and in the enactment of such further laws along the same line as may be necessary to safeguard and protect at all times the interest of the consumers of manufactured products.

Resolved, that we demand of our officials, both county and state, the most rigid economy consistent with a progressive administration of the public business.

Resolved, that we demand of the State Legislature an economical expenditure of the public funds; the abolition of any unnecessary boards or commissions, and that we especially demand of our representatives in that body that they oppose with their votes and influence the appointment of clerks for the less important legislative committees.

Resolved, that we recognize in the

improvement of our public roads and highways the greatest factor in the upbuilding of the country, socially and industrially; that we demand a continuation of the betterment of our county roads as rapidly as the financial condition of the county will permit.

Resolved, that we favor an appropriation by the legislature to reimburse the Indian War veterans for horses and supplies furnished by them for use in the Yakima Indian War and that we ask Congress to place these veterans on an equality with the veterans of other wars in the matter of pensions.

Resolved, that it is the policy of the Republican party to nominate only the very best men available for the various offices of public trust; that we recommend to the favorable consideration of the people of Polk county the candidates indorsed by this assembly, and that we pledge to such candidates our loyal and enthusiastic support."

**WOULD CREDIT HOME DUTIES**

cause early in life they had the responsibility of home thrust upon them. I am sure that the motto "Everybody Helps," is a good one.

But one says, "How can it be brought about? How can the school give credit for industrial work done at home?" This may be accomplished by printed slips asking the homes to take account of the work that the child does at home under the instruction of the home, and explaining that credit will be given this work on the school record. These slips must be prepared for children according to age so that the child will not be asked to do too much, for it must be clearly recognized that children must have time for real play. The required tasks must not be too arduous, yet they must be real tasks. They must not be tasks that will put extra work on parents except in the matter of instruction and observation. They may well call for the care of animals, and should include garden work for both boys and girls. Credit in school for home industrial work (with the parents' consent) should count as much as any one study in school.

To add interest to the work, exhibitions should be given at stated times so that all may learn from each oth-

er and the best be the model for all. The school fails in Yamhill, Polk, Benton, Lane, Wasco and Crook counties, together with the school and home industrial work done at Eugene, have convinced me most thoroughly that these plans are practicable, and that school work and home work, school play and home play, and love for parents and respect for teacher and fellow-pupils can best be fostered
