**How to Preserve Finger Nails.**

Before Working in the garden, polishing the stove or doing other rough work rub your finger nails over a piece of soap. This will prevent the earth from getting under the nails, and when you wash your hands the soap will come out easily. This is recommended to people who find it hard to do work with gloves on.

Chas. Hatch, who is visiting at the home of his cousin, Mrs. Jasperson of this city, was a Salem visitor Saturday.
