NEWS ITEMS OF OTHER CITIES

Portland's postal receipts for June, 1910, compared with those of June last year, show a greater percentage gain than those of all other cities of the West, except Los Angeles.

The Vesuvius mine in the Bohemia district has resumed work, after having been idle for nearly a year, and the large 30 stamp mill will be in operation within another week.

Peach day will be celebrated in Freewater this year on August 17, and preparations are under way for the biggest occasion of the kind that has ever been held in the Walla Walla valley.

Mayor Straw of Marshfield has sent to the mayors of all of the cities in Oregon invitations to some to Coos Bay during the week of August 15 to organize a state association of mayors.

The preliminary survey work has all been done on the Cottonwood irrigation project, a small one, located near Westfall. The project, when completed, will irrigate about 20,000 acres of land.

Portland rounded out the fiscal year ended June 30, 1910, with heavier wheat exports than any other city or customs district in the United States, except New York, according to figures made public by the department of commerce and labor.

John S. Coke, circuit judge in the second judicial district, has filed his declaration of intention to be a candidate to succeed himself. Coke was appointed by Governor Chamberlain when the office was created by the legislature last winter.

Word has been received from Boston, that all papers necessary to construction of the railroad from Union by way of Elgin to Walla Walla have been signed and the dream of years of a competitive road and one across the mountains will soon be realized.

The state treasurer filed his semi-annual statement for the six months ending June 30. The balance on hand, held by the state January 1, 1910, amounted to \$821,820.55, while the receipts derived from different sources swelled this amount to \$2,764,484.02.

Harvey Lambert, who murdered his wife by firing three bullets into her body while she held their 6-month-old babe in her arms, on July 2, at Portland, and then fired a bullet into his own breast in an attempt to end his own life, is thought to be dying.

At a special meeting of the city council of Medford, a resolution was adopted for the submission to the people at a special election called for August 2 on the question of amending the city charter, so as to authorize the levy of a special tax for the purpose of maintaining a Carnegie library.

Fifty-five thousand acres of the Rogue River Valley will be irrigated, at an expenditure of at least \$2,000,000, within the next few years, as the result of the closing of a deal whereby the Rogue River Valley Canal company, composed of a party of Spokane capitalist, headed by P. Welch, acquires ownership of the property of the Fish Lake Water company.

The railroad laborers employed on the new Natron extension east of Eugene, encountered a large vein of coal near Natron. The coal seems to be of good quality, and steps will be taken by several men interested in property in that vicinity to trace the vein and open it further to ascertain its extent.

Three Japanese on the hill near the wireless station were observed taking pictures of the mouth of the river, especially in the direction of Fort Stevens. From that point with strong glasses a view can be had directly into the forts. What attracted particular attention was the peculiar camera they were using, as the lens was in what looked like an extension telescope.

In regard to the establishing of a state trout hatchery on the McKenzie river east of Eugene, H. C. McAllister, former state fish warden, has written the Eugene Commercial club that if the legislature at its coming session in January will make some provision whereby the game fisheries can be put under the supervision of the master fish warden, it will not be necessary to go to the expense of building an additional hatchery on the McKenzie, as the one now used for hatching salmon can be utilized for trout as well.

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and cleans, healthy flesh. It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs. Constipation is the most unclean uncleanness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.
