D. J. Collins has just wound up the work of preparing for shipment his early picking of gravensteins and early apples from his orchard out south of Independence. Four hundred fifty-eight boxes were shipped out this week to Portland. One hundred forty-four boxes of these were gravensteins picked from seventeen trees of this variety.

Mrs. Lottie Hedges-Dorris presented the Enterprise with a basket of the famous Hedges peaches last Saturday. The fruit was artistically arranged with twigs and leaves from the trees on which it grew and was a most tempting exhibit. The size of the peaches was unusually large and the flavor was most excellent. The Enterprise has never seen their equal.

Chas. S. Hiff expects to sell out his farming implements, machinery, etc., with the intention of retiring from the farm for the present at least. Mr. Hiff has not decided what he will do but the Enterprise is assured that he will remain in Polk county. The sale which will be advertised in this paper in the near future will take place September 24 at his farm one mile west of town.

Mr. and Mrs. Carl Percival returned Monday from Ashland where they went to attend the funeral of Mrs. Percival's brother-in-law who came to his death by falling under a moving train. The unfortunate man was run over by two cars and was injured in a most shocking manner, both his arms and legs being cut off. He lived about an hour after the accident.

W. Wiederkehr, a prosperous farmer who resides on the opposite side of the river from Independence, was in Independence today. He says that he has just finished harvesting his alfalfa for the third time this season, and that he is more than pleased with the yield. The first cutting yielded four tons an acre, the second cutting three and the third cutting a ton and a half to the acre. The total yield was eight and one-half tons to the acre for the season.

S. H. McElmurry brought in a few apples to this office last Friday to show what can be grown in the Highland country. These apples were gravensteins and were grown without spraying. They are of good form and size and speak well for the country. Mr. McElmurry says that he put lime and ashes around the roots which he believes kept away all insects. The receipt he got from an apple raiser of southern Oregon. Mr. McElmurry also brought in a specimen of fine large prunes which he grew.

O. Butler, one of the prosperous farmers of the other side of the river from Independence, was in town last Friday. Mr. Butler has a large farm and with the advent of the Oregon Electric railroad he will find himself one of the wealthy men of the country. He says that there is no doubt but that the line will go through his place. It will give a market for everything that can be raised on the farms in that neighborhood. Mr. Butler is a settler of 1849 and had the pick of the country. He certainly has a good place.

The Lash of a Fiend

would have been about as welcome to A. Cooper of Oswego, N.Y., as a merciless lung-racking cough that defied all remedies for years. "It was most troublesome at night," he writes, "nothing helped me till I used Dr. King's New Discovery which cured me completely. I never cough at night now." Millions know its matchless merit for stubborn colds, obstinate coughs, sore lungs, influenza, asthma, hemorrhage, croup, whooping cough, or hay fever. It relieves quickly and never fails to satisfy. A trial convinces. 50c, \$1.00. Trial bottle free. It's positively guaranteed by all druggists.
