NEWS ITEMS OF OTHER CITIES

The study of horticulture introduced into the Medford High school this year is proving an important addition. The class thus far has been studying the planting and pruning of trees.

A warrant has been issued for the arrest of Elwood L. Clark, ex-cashier of the United States National Bank at Vale, Malheur county, charging him with irregularities in connection with the bank.

Oregon's total valuation of crops for the present year, as estimated by Dr. James Withycombe, director of the Oregon experimental station at Corvallis, will be approximately \$115,000,000.

Plans are projected for a number of new six-inch batteries at Fort Stevens. The extreme rapidity and accuracy with which this calibre weapon can be fired will render them extremely useful in defense of the submarine mine fields.

Including the coastwise traffic Portland has shipped 1,156,399 bushels of wheat during the cereal year begun July 1, as against 595,846 bushels forwarded from the combined ports of Puget Sound, according to a statement which has just been issued by the Merchants' Exchange.

Mathias Machas, a horticulturist from Budapest, Hungary, travelling in the United States on a "stipendium" granted him by his government, is spending several days in Hood River investigating and studying the methods employed there in raising and packing apples.

According to statistics compiled by the department of agriculture, Oregon leads the United States this year in apple production. The report shows that in September Oregon had 93 per cent of a full crop, while Washington, the nearest competitor, had 90 per cent of full crop.

A new high power telescope instrument has arrived at Fort Stevens for use in discovering and bringing within focal distance approaching boats. It has such powerful lenses that objects at a distance of 40,000 yards, or nearly 23 miles, can be plainly discerned through this instrument.

Master Fish Warden R. E. Clanton, states that all of the hatcheries in District No. 1, with the exception of that on the McKenzie, will be closed until spring, owing to a shortage of district funds. All of the eggs from the other hatcheries in the district aside from the McKenzie, will be sent to the central hatchery at Bonneville.

William H. Williams, who has been trekking across the continent amusing himself by sending threatening letters to the governor of Oregon, has been taken into custody in California and will be returned to the Oregon hospital for the insane, from which he was paroled in 1908. Williams has been worrying the officials at Salem with his communications for more than a year past.

With the coming of the rainy season in Oregon, the Forest Service has planned the seeding of between 5000 and 6000 acres of burned-over lands at a cost of approximately \$20,000; 700 acres being situated at the Bull Run watershed, as an auxiliary to the Portland water supply. The largest amount of planting is to be done in the Mt. Hebo district. The district was burned over in 1857 and has never become reforested.

With an attack upon the legality of the \$3,000,000 Klamath Falls reclamation project, Attorney C. W. Fulton, of Portland, is preparing to not only oppose the claim of the Federal government that it has the inherent right to close navigation when deemed to be to the best interest of the people, but to open a legal question which may assail every irrigation scheme now under process of construction by the reclamation service in the United States.

The forty odd candidates for county offices in the various counties of the state who violated the primary law by failing to file their expense accounts within the legal time of ten days after the election, and who were actually nominated, need not fear that the county auditors can keep their names off the official ballot for the general election. This point was settled absolutely by the state supreme court in an opinion rendered in the case of Hiram G. Fuller, republican candidate for treasurer in Lincoln county, against Ira M. Corey, county auditor.

Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

It Makes Weak Women Strong. It Makes Sick Women Well. Honest druggists do not offer substitutes, and urge them upon you as "so good." Accept no secret nostrum in place of this non-secret remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. Is a pure glyceric extract of healing, native American roots.
