

GLASS TO SPEAK AT OPERA HOUSE

On Friday night, October 21, J. M. Glass of Pasadena, California, will speak at the opera house. He is bright, brainy, witty, convincing and logical. "In some lines he is just as good as Gough, in some better." There will be good music. Everyone is welcome.

ABUSING THE INITIATIVE.

Initiative for Matters of General Interest.

"The initiative privilege is a valuable right and the people of Oregon are fortunate in the possession of the same. It is a right though that should be used with discretion. If the initiative is invoked indiscriminately, it will be of injury rather than of benefit," says the Pendleton East Oregonian in its issue of July 19.

"By the nature of things the initiative should be used for the settlement of questions that are of general state interest and questions upon which the people at large are capable of judging. It was proper that the direct primary law be enacted under the initiative. The law could not have been enacted in any other way. Legislatures elected under the old convention system would never have passed the direct primary law. It was proper that the corrupt practices act be enacted under the initiative and referendum. That law pertains to political morality and the people were able to judge of the merits of the law. It is all right to settle the normal school problem under the initiative. The legislature has utterly failed to handle the question.

"But the most glaring abuse of the initiative is on the part of those who have proposed county division measures. Eight bills have been filed asking for the creation of new counties or for the changing of boundary lines. In each case the question involved is of a purely local nature; not of state interest. It will be impossible for the people of the state to judge of these measures with intelligence. All division disputes should have been held in abeyance pending the passage of a law calling for the settlement of such disputes by the people directly concerned. The county divisionists, however, have refused to wait. They have submitted their bills in hopes the people will vote blindly for them. They have abused the initiative privilege and they should be rebuked for doing so. Every county division bill should be voted down.

"Insist that the initiative be used only when it may be invoked with propriety"

They All Lose Out

When the liquor interests send out many more such men the county will surely go dry. Then there is the other Ananias posing as a representative minister, Wm. A. Wasson. With Wilson but the liquor interests of Portland were disgusted with his damage to the wet side. The people of Oregon are thinking seriously and they want the facts. To try to uphold the wet side by false statements, jugglery of facts and offense prejudices does not satisfy the thinking man.

When you feel dull, out of sorts, discouraged, half sick and everything seems to be going wrong, you can blame it on your liver. It is torpid. You need

HERBINE

A Medicine of Power in All Liver Disorders.

When the liver is torpid, it throws impurities into the system, which hamper every organ in the body. The result is that functional processes are not properly carried on. Impurities get into the blood, the stomach is bilious, the kidneys weak and the bowels irregular—generally constipated. Herbine clears out all these impurities, opens up the obstructed channels, strengthens the torpid liver, cleanses the blood, purifies and regulates the bowels. After the system has been thus overhauled, there is an immediate improvement. Appetite returns, digestion is good, the spirits rise, the mind clears of gloomy forebodings and everything looks bright and cheerful, which means, sound, healthy conditions everywhere in the body.
