OVERTURES TO REBELS

PEACE OVERTURES ARE MADE TO REBELS

Diaz is Said to be Willing to Arrange for Termination of Hostilities.

Washington.—Dr. V. Gomez, head of the confidential agency here of the Mexican revolutionists, has announced that he indirectly had received overtures for peace from the Federal government.

Dr. Gomez said the confidential agency here had been advised by its junta in El Paso, Tex., of the desire of Governor Ahumada, of Chihuahua, to confer in Chihuahua with Francisco I. Madero, leader of the revolution, and also had been informed through the junta in San Antonio, Tex., that three delegates of the Diaz government wished to meet Dr. Gomez on the border and arrange for the termination of hostilities.

Dr. Gomez, who was formerly the family physician of President Diaz and who was, in the last election, candidate for the vice-presidency of Mexico, on the same ticket as Francisco I. Madero, the candidate for president, said the provisional government would not "undertake any negotiations of peace, except under the condition that the delegates shall be legally and fully authorized with written powers."

Mexico City.—Enrique C. Creel, the Mexican Minister of Foreign Affairs, denied that any peace overtures had been made by President Diaz to the revolutionists, as alleged by Gomez in his announcement in Washington.

No "Drumhead" Trials for Americans.

Washington.—The Mexican government has no intention of making martyrs of the roving Americans who have crossed the line to cast their fortunes with the insurgents. According to the Mexican embassy here these men will be put in jail and tried in the ordinary course and in due time, not by "drumhead court-martial," but by the established tribunals. Pending the trials they will be treated as ordinary civil prisoners.

Interests Approve Rate Ruling.

New York.—Heads of the railroad systems of the United States who expressed great dissatisfaction with the ruling of the Interstate Commerce Commission against an increase in freight rates, when it was announced recently, have undergone a change of sentiment and several have approved the Commission's action. Many powerful financial interests are now taking the same view.

The pessimism which first greeted the Commission's ruling has given way, argues Wall Street, to acquiescence and, in not a few instances, to genuine approval of the blow to rate increase.

WOMAN'S JEWELS STOLEN

Prominent Woman Awakens to Find Property Gone From Stateroom.

New York.—Mrs. Baldwin Drummond, formerly Mrs. Marshall Field, Jr., of Chicago, was robbed of a fortune in jewels aboard a trans-Atlantic liner. Pearls and other gems to the value of approximately \$130,000 disappeared from her stateroom on the steamship Amerika of the Hamburg-American line. The loss was reported immediately when the liner docked at Hoboken, and the police of Hoboken and New York are working on the case. The Hamburg-American line disclaims all responsibility on the ground that the passengers leaving jewels in their staterooms do so at their own risk.

Nine Killed in Battle.

Winnemucca, Nev.—Eight Indians, including two squaws and two children, and one white man were killed in a running fight near the Tuscarora, when a pursuing posse of 21 men came upon the band of 12 Shoshones, charge with the murder of four wealthy Nevada stockmen in Northern Washoe County, on January 19. On the posse's side, Edward Hogle, of Eagleville, Cal., was killed.

A 15-year-old girl and three children were captured. It is said that loot taken from the bodies of the murdered stockmen was found in the camp of the Indians.

Jap Coolies Going Home.

San Francisco.—The number of Japanese laborers in the United States has decreased 11,152 in the past three years, if statistics prepared by the Japanese Foreign Office are correct. The figures were made public by Mitsuo Nagai, Japanese consul-general for San Francisco.

The report indicates that the United States has lost 6371 Japanese of all classes by excess of departure over arrivals in the three years.

PRESIDENT TAFT IS SCORED BY BOURNE

Washington.—President Taft, by inference, was charged with using his appointive powers to intimidate members of Congress. The inferred charge was made in a speech in the Senate by Bourne of Oregon, president of the new Progressive Republican League. The surprising thing was that, although all of the senators construed his remarks as an attack on the President, not a word was uttered in reply.

Bourne said the use of the Presidential appointive powers to coerce members of Congress would be either bribery or intimidation—bribery if patronage was used as a reward, and intimidation if withheld as a punishment.

Shepard Retires From Race.

New York.—Edward M. Shepard, in a letter to Montgomery Hare, announced his retirement from the fight for the United States Senatorship to succeed C. M. DePew.

Harem Skirt Agitates Dressmakers.

New York.—Whether American women will "take up" the much-talked-of Harem skirt, which is little different from a pair of pantaloons, is a question that is agitating dressmakers.

WAPPENSTEIN ARRESTED

Bribery Charged and Wealthy Friends Furnish \$25,000 Bail.

Seattle.—Charles W. Wappenstein, ex-chief of police, was arrested on a warrant charging bribery and based on an indictment returned by the grand jury.

The indictment charges that Wappenstein received \$2500 from Gideon Tupper and Clarence Gerald, saloon-keepers and members of the so-called vice syndicate, which is alleged to have enjoyed exclusive gambling during the administration of Hiram C. Gill, the recently recalled mayor, and ex-Chief Wappenstein, who went out of office simultaneously with Gill.

Wappenstein was taken to his attorney's office, where bail in the sum of \$25,000 was furnished by two wealthy friends.

WINCHESTER
Repeating Shotguns

USED IN THE U. S. ARMY.

The U. S. Army authorities know a gun; that is why, when they decided to equip some troops with repeating shotguns, they selected the Winchester in preference to all other makes. The experts of the U. S. Ordnance Board also know a gun; that's why, after submitting a Winchester Repeating Shotgun to all sorts of tests, they pronounced it safe, sure, strong and simple. If you want a shotgun—buy the one whose strength and reliability led the U. S. Army authorities to select it and the U. S. Ordnance Board to endorse it—that's the Winchester.
