**REBELS STILL ACTIVE.**

Unaware of Armistice, Troops Move On Mexican Capital.

Mexico City, May 24.—Notwithstanding the official signing of the peace agreement, the capital is more nearly isolated tonight than since the inauguration of hostilities.

Ignorant, apparently, that the war is ended officially, one small band of rebels under Candido Navarro last night cut the national railroad near San Felipe, south of San Luis Potosi, and another band stopped all traffic over the Mexican railroad by ripping out the rails and burning a bridge near Huamantla. Believing that the rebels in Morelos would interfere with traffic over the Cuernavaca branch of the national railroad, the management sent a train south today with guards.

Rebel activity was not regarded as meaning that the insurgents will refuse to abide by the terms of the peace treaty. Yesterday the armistice agreed upon terminated and there are probably scattered bands of rebels uninformed that their country is officially at peace. However, Navarro is reported to have said he would not consent to peace at present.

The motive for the cutting of the Mexican railway may be that a troop train was being brought towards the capital.

Unconfirmed reports are that the delayed soldiers have detrained at Huamantla and engaged a body of rebels in battle.

In the last seven days the Federal garrison has been greatly strengthened and the capture of the capital will now be difficult.

It is reported that Figueroa and his chief lieutenant, Azunolo, are at outs and that Azunolo has angered Zapata, the captor of Suatila, by branding him a bandit.

**NEW LAW INJURES WOMEN.**

100 Matchmakers Discharged Because of 8-Hour Limit.

Chico, Cal.—The Diamond Match company, operating big factories at Barber, a suburb of this city, will replace practically all its women employees with men, on account of the new eight-hour law. In the match-making department alone more than 100 women and girls will be let out. Many are experts brought from the Eastern states and are receiving good salaries.

For some time it has been impossible for the company to get a sufficient number of competent women to do the work, and with the enforcement of the new eight-hour law, conditions are made worse, as the work of practically 100 men depends on the work of these women, and their hours would of necessity have been shortened with the shortening of the women's hours from nine to eight.

It had been rumored the company contemplated employment of Japanese to replace the women, but General Superintendent Fairburn denied this.

**Hillman Barely Escapes.**

San Diego, Cal.—C. D. Hillman, the Seattle millionaire, whose appeal from a sentence for real estate frauds is pending, had a narrow escape from having to sell for \$150,000 a ranch near Encinitas, which is proved by the discovery of oil to be worth \$500,000.

After having accepted an offer of \$150,000 from Oakland men, Hillman visited the ranch and found three oil outfits at work and ascertained that oil in paying quantities had been struck and that prospects were good for a better flow. When Hillman learned this he attempted to call off the deal with the Oakland people, and finally compromised by giving his personal check for \$5,000 to sever negotiations.

**Monarchists in Prison.**

Lisbon—According to an official statement issued here, a number of persons in various walks of life have been arrested in the northern parts of Portugal charged with circulating alarmist reports. The prisoners were sent on board the Portuguese cruiser Adamastor, lying off Oporto. The blue-jackets of the Adamastor, which were landed at Oporto, later proceeded to Caminha, on the river Minho, to prevent the monarchist conspirators at Tuy, a Spanish frontier town, from crossing the river into Portugal.

**French Relieve Fez.**

Tangier—The safety of Fez from sack and massacre is believed to be assured. Dispatches have reached here that Colonel Barnard's French relief expedition has reached the capital, where the sultan is beleaguered, and that it has either entered or is camped outside the walls of the city. The arrival of the French has dissipated all fears that the foreigners who were besieged with the sultan by the rebellious tribesmen will be slain.

**Lifeboat Tells of Wreck.**

London—The British armored cruiser Cumberland reported by wireless to the admiralty that she had picked up at the mouth of the English Channel an empty lifeboat belonging to the overdue British steamer Cayo Largo. The vessel left Swansea April 16 for Tampico, and it is feared that she foundered in the storms that followed her departure.
