CURRENT EVENTS OF THE WEEK

Doings of the World at Large Told in Brief.

General Resume of Important Events Presented in Condensed Form for Our Busy Readers.

A bad forest fire is raging near Tacoma, Wash.
Ex-President Diaz of Mexico arrives in Spain to reside.
King George distributes many titles during coronation week.

Forty thousand suffragists parade through streets of London.
Portland is the greatest wheat-shipping port in the United States for the year just ended.

Another bomb was found in the hall of records building in Los Angeles ready for explosion.

Oregon warship Boston arrived from Bremerton navy yard Sunday afternoon and received a royal welcome.

George W. McBride, ex-United States senator and secretary of state, died in Portland hospital at the age of 57 years.

President and Mrs. Taft celebrate their twenty-fifth wedding anniversary Monday. Their presents would fill wagons.

Senator Lea of Tennessee saved the life of his wife by submitting to a transfusion operation which took a quart of his blood.

The trunk of the historic Balm of Gilead witness tree at Vancouver, Wash., to which Lewis and Clark are said to have tied their canoes when they came down the Columbia river in 1805, was carried down the river by the high water.

Dick Ferris, the Los Angeles promoter who asserts he was elected president of the "Republic of Lower California" as a joke, and was indicted in consequence, was arraigned in court Tuesday. He and the Mexican revolutionists were given two weeks in which to decide upon their pleas.

Engineers find the Maine much worse than expected.

St. Louis has a million-dollar fire in the manufacturing district.

BANQUET IS MAGNIFICENT.

Tons of Gold Are Shown on Royal Tables.

London.—The most regal banquet palace of king or emperor ever witnessed, and a gorgeous Shakespearean ball under the auspices of noted society leaders, stand forth as shining features of the second day of Coronation week. The banquet in Buckingham Palace was a scene of imperial grandeur, so far as the assemblage of royal and eminent personages and the setting of costly magnificence and beautiful decorations could make it.

The King and Queen entertained the special delegations, the foreign Ambassadors and Ministers, the officers of state and the household, the members of the cabinet, and ex-cabinet members, the heads of the church and judiciary and of the army and navy.

The two largest apartments in the palace, the ballroom and the picture gallery, which adjoin, were utilized as a banquet hall. On the tables was displayed the royal gold plate, used only on historic occasions, the cost of which is estimated at \$15,000,000, and its weight eight tons. This plate, for the most part, was obtained in the reigns of the four Georges, and the principal pieces is a massive peacock captured in one of the Indian wars, whose tail is studded with diamonds. Cut glass worth a fortune, and old wines dating back more than a century were on the board.

The gallery holds more than 800 pictures. The decorations in both rooms are largely of gilt, and the background was embellished with banks of palms and giant lilies, white orchids, robes and ferns were stacked on the tables. Yeomen of the guard were ranged about the walls and all the diners wore their richest uniforms, decorations, gowns and jewels.

WIVES TO DIVIDE WORK.

Women Will Cook Meals on Alternate Days for Sharp.

Pittsburg, Kan.—The two wives of Peter C. Sharp must live apart the rest of their lives. Two three-room cottages, one on each side of his own little home, will be built, one for Anna Catherine and the other for Louisa. That which was thought would be a happy family when Peter met his first wife, Anna Catherine, a month ago after a separation of 40 years, will be divided henceforth.

The separation comes as a result of a quarrel, which terminated in a physical encounter and the decision of the husband that his two wives shall live apart from now on.

Peter, although hoping that he could patch up the quarrel between his two wives, saw that all hope had vanished and decided to build a cottage for each wife on the opposite sides of his little home. Louisa is to do the housework and cook his meals one day, and Anna Catherine the other.

HANGING ON LIVE WIRES, SAVED.

Breathless Crowd Watches Rescue of Paralyzed Lineman.

Spokane, Wash.—While a crowd of several hundred persons gazed breathlessly on the exploit, George Cowley, line foreman employed by the Washington Water Power Company, with four assistants, rescued Gordon B. Stone, a lineman who had been paralyzed by an electric shock, from a perilous position among the wires at the top of a pole.

Stone had been working near the top of the pole, which carries a heavy load of crossarms and a network of wires. He came in contact with bare wires carrying a high voltage feed circuit.

He was thrown clear of the pole, but the safety belt encircling the pole saved him from being dashed to death on the pavement. Unconscious, he fell across lower voltage wires several feet below where he had been working.

His companion, Lang, telephoned his chief, who came in an automobile with assistants and tackle, arriving before the automobile patrol with emergency hospital attendants, who had been summoned.

Convicts Yield to Eat.

Canyon City, Colo.—After two weeks of hiding in the mountains, continuously sought by prison authorities, Curtis Day and Rollis Hollingsworth, escaped convicts from the state penitentiary, appeared at the prison gate and asked to be taken back and fed. The men said they had nothing to eat since their escape from the institution. Each had lost fully 20 pounds during his sojourn in the hills, and showed every sign of being near to starvation.

Probationer Gets \$17,000.

Oroville—As a reward for laying aside what his father termed in his last will "the wasteful and reckless conduct" of his son, and as a further reward for acquiring "a steady" and "temperate" habits and a "fixed purpose in life," and "an apparent determination to become a useful member of society," Charles A. Meng obtained possession of the residue of his father's estate, amounting to more than \$17,000.

Largest Boat Arrives.

New York.—The new White Star liner Olympia, the largest steamer afloat, passed Fire Island on her maiden voyage across the Atlantic at 12:17 A. M. This point is 75 miles from the New York waterfront and the steamer will dock in this city. Although it is reported that there was no effort at great speed, the new liner is several hours ahead of the scheduled time of her arrival.

INDUSTRIAL DEVELOPMENT AND PROGRESS OF OUR HOME STATE

INVADERS TO FEEL AX.

Foreign Corporations Operating in the State Under Ban.

Salem.—Declaring that the State of Oregon is losing approximately from \$10,000 to \$25,000 annually because of foreign corporations entering the state to transact business without complying with Oregon laws requiring the filing of certain papers and the payment of declaration and annual license fees, Secretary of State Olcott is sending out letters to all district attorneys in the state requesting them to advise him of all such corporations in his district that the fines and license fees may be recovered by actions at law.

"It does not seem to be generally known," said Secretary Olcott in a statement, "that there is any penalty attached to the failure of foreign corporations to comply with the laws of this state in regard to the filing of declarations, power of attorney and certified copy of the articles of incorporation. However, I have concluded that section 5707 of Lord's Oregon laws applies to foreign corporations that enter this state and commence the transaction of business without first filing the above papers and paying the declaration and annual license fees. The section above cited provides that 'every such corporation, joint stock company or association, foreign as well as domestic, shall pay an annual license fee in proportion to the amount of its authorized capital stock,' and 'any corporation, joint stock company or association doing business in this state contrary to this act shall be liable to a fine of \$1,000, to be recovered, together with any license fee due, by an action at law in the name of the state.'

"The law makes it the duty of the secretary of state to request district attorneys to institute actions to recover in cases where the law has been violated, and it is the intention of this office to see that foreign corporations doing business in Oregon comply with the law."

CONVICTS TO SEE PICTURES.

Amusement Fund Provides Baseball Outfits Also.

Salem.—From the amusement fund of the state prisoners a moving picture machine for the penitentiary will be procured within the next few days. Superintendent James hopes to be able to arrange for a circuit of films to be used in the penitentiary, the industrial school, the state asylum and the deaf school and on the asylum farm. A moving picture show together with several numbers supplied by the convicts will be given when amusement actions to recover in cases where the law has been violated, and it is the intention of this office to see that foreign corporations doing business in Oregon comply with the law."

ROADS' EARNINGS BIG.

Oregon Short Line Shows Remarkable Prosperity.

Salem.—Enormous business transactions by the Oregon Short Line are indicated in their report, which has just been filed with the state tax commissioner. The gross earnings of the road from operations are shown to be \$21,748,834 for 1910, with operating expenses amounting to \$11,188,791. The total income is placed at \$29,585,164. The taxes for the entire line in 1910 were \$840,757 and for 1909, \$665,951. The taxes in Oregon for 1910 were \$27,201 and in 1909, \$6611. The gross earnings per mile for the company are shown to be \$13,594 and the expenses of operation per mile \$7159, while the net earnings per mile are \$6795. The equipment, including rolling stock, but exclusive of roadbed, rails and similar property, is valued at \$12,046,971.

Heating Plant Need Filled.

Salem.—Discovering that the old heating plant at the State Sanatorium for the Prevention of Tuberculosis is past the hope of repair, the state Board for the Prevention of Tuberculosis found that it was entirely without an appropriation for a new plant. As a result, Governor West turned over to the institution the old heating plant at the asylum, which has been recently replaced.

Surveyors Start from Burns.

Burns.—Three crews of government surveyors, each containing 14 men, arrived in Burns this week and are on their way to different parts of the county, where unsurveyed land is situated, to proceed with the work of subdivision, which they began last year. One gang will go to Steens Mountain, another to the Iron Mountain section and the third to the extreme south end, near the Nevada line. A large area of good land will be taken for settlement.

Gage Mine May Reopen.

Riverton.—The Gage mine at Riverton, on the Coquille river, which has been closed down, is to be opened again soon, it is announced. San Francisco men are interested in the property and plans are now being made for operating the mine.

Will Hold Strawberry Day.

Weston.—A strawberry day and garden show will be held at Weston Saturday, July 1. Its object is to advertise the resources of the mountain country near Weston, and especially the strawberries grown without irrigation on mountain soil. These ripen in midsummer, are much larger than the irrigated berry, and of delicious flavor. The demand for them exceeds the supply.

Sherwood to Have Sewer System.

Sherwood.—The city council has ordered a large main sewer through the center of town to drain into a septic tank. The cost will be about \$3000 and there is enough money in the treasury to complete this part of the work. It is planned by another year to have laterals that will reach every part of the town.

"TOP OF THE MORNING TO YOU."

So said Mr. Bread to sweet Miss Chocolate Cake, as they met on "delivery morning."

BREAD AND CAKE

after the above colloquy, were shortly thereafter found snugly ensconced in Mrs. Good Liver's bakery larder. Baked stuff from this bakery is wholesome and appetizing.
