

CALL US UP

Whenever you want anything from this store. That is exactly what the telephone is for. We have so thorough a system and our clerks are so thoroughly trained that we fill every telephone order with as much expedition and care as though you stood on the other side of the counter. We give personal attention to telephone orders from physicians. Have your doctor phone in your prescription and test our service.

PERSONAL AND LOCAL

Dr. Duganne, Dentist, over Independence National Bank. Both Phones

—Mr. Gus Sperling, of Portland, is in Independence on business and is very busy greeting his many friends.

Leave orders for slab wood at the C. K. Spaulding Logging Company's office.

Before buying your binder twine see Hanna Brothers—the Hardware Men.

Mr. S. McElmurry, of Independence, with his wife and family, have gone to Newport for the summer—we wish them comfort and rest.

Mr. W. L. Bice and wife, D. N. McInturff and family, and H. F. McInturff and wife went to Humboldt lake on Sunday and spent a very pleasant day in the woods.

Let us make your abstract of title for you. Satisfaction guaranteed.—Brown & Sibley, Attorneys and Abstractors, 610 Mill Street, Dallas, Oregon.

John Underwood, who lives just north of town on a fine 180 acre farm was in town on Monday, trading and greeting his old friends. He expects to haul at least 150 tons of hay.

Dr. Butler has returned from Waterburg, Washington, where he went with his father in law, Mr. A. Nelson, for the latter's health. He reports that the change did Mr. Nelson a great deal of good. Mrs. Butler remained with her father and will be away for some weeks.

W. L. Bice has just received word from Dr. Dunsmore, now on a trip to the Holy Land, from which we take the following: "The coast of Ireland almost in sight, and hope to land at Liverpool about noon tomorrow. Had an unusually smooth passage, no sea nor roll. All well." Written on board ship June, 30, 1911.

Pierce Reeves, of Saddle, son of R. M. Reeves, of our city, recently met with a painful accident which resulted in the loss of a big toe. For some time he was threatened with blood poisoning but now seems out of danger. He is at his father's home in Independence at the present and we heartily wish him a speedy recovery.

Mr. M. Walker, our hotel man, together with Mr. Thompson, our hotel man at Dallas, went on Saturday to visit their relatives, some eight miles from Albany, and returned on Monday. You would think them all Methodist preachers by the earnest reports of fried chickens, which they are still rejoicing in at this late date.

See the Monmouth Real Estate Co. for a great farm bargain. 168 acres very near Monmouth at only \$65 per acre, with good terms. 140 of the 168 is under cultivation, much of it now in crop. Good buildings, fine living spring, excellent neighborhood close to church and school. What a bargain!

Dr. Allin, Dentist, Cooper Bldg.

Mr. E. S. White, of Salem, was in the city on Tuesday, working among the business men.

H. M. Ward, of the Marshall Wells Co., of Portland, visited at the home of S. E. Owen last week.

Mrs. Owen and Mrs. Clyde Millama entertained the Needle Craft Club on Thursday of last week.

Edith Davidson, of Portland, visited her mother, Mrs. S. E. Owen, of this city, a few days last week.

Mrs. Albert Miller, of Long Beach, California, is visiting for a few days with her old Montana friends, C. D. Calbreath, wife and family.

Oak, Ash, Fir cord wood, Leave orders at Hanna Bros. Delivery when desired at present prices.—S. W. Leonard.

JUST RECEIVED

A large shipment of tents and all kinds of camp supplies. Bice and Calbreath.

Miss Gladys Putnam, daughter of Mr. W. N. Putnam, has been visiting in Salem for the past week. She returned home on Monday's boat.

The Polk County Real Estate Co. of Independence, has some very fine bargains, very close in. There is no better investment.

Mr. C. D. Smiley, who has just completed two large and beautiful new houses on the road between here and Monmouth, was in Independence on Tuesday.

Mr. William McKinney, who lives on a farm south of town, was in on Saturday and reports haying in full blast and the crop very fine in his section. Good hot weather for haying now.

Prof. Ackerman, the earnest president of the State Normal, was in Independence on Monday and gave the Enterprise a most pleasant call. We are always wiser and better after talking with this great man.

The Monmouth Real Estate Co., of Monmouth or the Polk County Real Estate Co., of Independence, can save you money by buying land through them. They have very large lists of very fine bargains and you should see them before buying.

The Polk County Real Estate Co. is getting out a pretty little booklet advertising land in this part of Oregon. Get a copy and send it to your friends and bring them here. Where could they find such a place to make a home as here?

Twenty four years ago F. A. Bell flew into Oregon with just ten dollars in his pocket. He was just from Germany and filed on 160 acres of land. Today he is worth fifty thousand dollars and he made it all off the land. He did not make it by speculation but just from the soil. He began at the bottom, cleared the land and put it in shape. Well done Mr. Bell.

The local Elks, at Portland, and over Oregon, are certain to be congratulated for this sublime victory.

If you want to buy one of the best farms in this vicinity for a little money, call on the Polk County Real Estate Co., Enterprise building.

The Home Telephone operating in Independence and vicinity, has been sold to Clyde E. Carica of Portland, who will take possession at once.

Mr. Charles O. Siglin, a director in the Scandinavian American Bank, was in the city on Sunday. He is touring the country. Let them come—they can find no better place.

During the past week Bice and Calbreath have gotten in a big line of fine new couches and other furniture. If you are in need of a rest do not fail to call and see these.

Good 1100 pound buggy horse for sale. He is good and gentle for man or woman to drive, and is in fine condition. Owner will sell cheap. Enquire at Enterprise office. 6—P—1

A great celebration was held on the night of the 12th, in Portland, with a mammoth procession, with bands and fire works. Not only Elks but all classes of citizens helped to celebrate.

Mrs. Jennie Woods, of three miles south of this place, was in and gave the Enterprise office a pleasant call on Saturday, and subscribed for the paper saying she could not get along without the Enterprise. Mrs. Woods was on her way for a visit in Dallas.

Mr. J. N. Stark, of Eugene but well known here, came down on Tuesday and will be here for a few days. His wife is with him. They came to bury the wife's father, Mr. Lewis Blankenship. The Enterprise extends hearty sympathy.

For five days the heat has been the worst that it has ever been here. Gold as high as 103 in the shade—but all are not foolish enough to stay in the shade all the time. The term of heat continues longer than usual but the nights are cool and all can sleep.

Rev. and Mrs. Blackstone went to McMinnville on Monday where he will continue his studies for the ministry. We will be glad when he can be with us all the time for there is much to be done here and he is very earnest and efficient in his work.

The beautiful building being erected by the Odd Fellows, on "C" street is getting on well and is going to be a credit to our city. The contractor, Alma Metzger, is pushing things all he can and surely understands his business.

Professor Dunton and wife, of Falls City, and Professor Mills, of Black Rock, were in town on Tuesday. Mr. Dunton has been principal of the Falls City schools for a number of years and has brought that school up to a very high standard. Prof. Mills is principal of the Black Rock schools.

Gordon Adams, a young friend of Mr. Anderson the bicycle man, is here from Corvallis and wants a job of any kind of work but would rather drive a team. Mr. Anderson gives him a splendid recommendation. Any one in need of a good boy call up the Enterprise.

Mr. Bloch, the proprietor of the Independence Meat Market, is congratulated on his nice new wagon, beautiful team, and brand new harness. That is the way to do things and the public will show their appreciation. The nice juicy meat will be even sweeter by this clean, elegant way of handling it.

On Saturday a beautiful little bird flew into the building and took his seat upon the linotype machine as if very much interested in how to make a news paper. We do not know if the bird kingdom has learned how kind the Enterprise force is or not but, although we all went up to within a few feet of the machine, he did not move until the operator went to work. We greatly enjoyed this pleasant call.

Ernest Ziesch brought in from his big farm, on Saturday, some alfalfa which had been sown only forty days and measured over 24 inches in length. What do you think of that? This is truly a great country. The next ten years will open the eyes of many as to what can be done here. This country is only in its infancy as to its development. Let us get and keep out of ruts. Some people think nothing but oats and wheat will grow here because they have never grown anything else.

Major McIndoe, who is in charge of all the government works in the district of Willamette, which takes in the Columbia, Snake and all tributary rivers, came up this week to the government dredger now working in the river between Salem and Independence, for the purpose of inspecting the work. They are moving a great deal of gravel and making a good channel. That is what we need. Let everything be done for navigation possible. Competition is the death of exorbitant freight rates.

Prof. J. B. V. Butler, the popular teacher, successful farmer, up-to-date business man and vice-president of the State Normal, was in the city on Tuesday. He has just had a trip to California and was delighted with what he saw to the south of us.

Mr. J. W. Winters came up from Salem on Tuesday, with a big load of fine water melons, which he sold to the local merchants. Mr. Winters lives near Independence and supplied the local markets with water melons last year. He disposed of lots of them.

Mr. Kin. Orr, of Spokane, a friend of former days, has made his fortune by taking up rich land near here. He is now seeking a better location and a more congenial climate, and of course came to Oregon. He expects to settle on the coast of Oregon near Newport. He greeted us warmly on Tuesday and will be here for a month or more. We wish he would settle in or around Independence.

Little Earl, the seven year old son of Mr. and Mrs. J. D. Reeves, had a sad accident Friday p. m. while playing with fire-crackers one happened to go off in his hand. The lashes were burned from both of his eyes and one eye is seriously injured. He was taken to Dr. Hewitt, who attended to the injuries. The boy is much better now and we hope he will have a speedy recovery.

W. J. Thompson, a Portland jeweler, with his wife and daughter, have been on quite a trip to Cascadia and other points. They are spending a few days in this city at the home of C. G. Long. Mr. Thompson's brother in law. They are full of praise for the mineral springs at Cascadia, and say that it would be hard to find a place better for an outing. The place is not only good but cheap.

Mr. A. M. Brown, our accommodating and hustling second hand man, drove out on Sunday to the fine farm of Hanna Bros, just north of Monmouth. He is very much enthused over the farm and the fine stock, and says it is one of the very best he has ever seen. They have everything in fine shape and are now working about 15 men. Such a place gives a boost to the whole country. These industrious young men are doing great things because they themselves are not afraid to go ahead. They have learned how to turn defeat into victory. They have done much and will do greater things.

If Dr. Lowe did not have the ability to relieve the head aches and other nervous disturbances that often result from eye strain he would not call your attention to these distressing subjects. His glasses are not "cure alls" they simply relieve eye strain. If the troubles mentioned are due to eye strain they cease. If it is a matter of medicine he will send you in haste to a physician. Dr. Lowe has worked too long to give satisfaction to wipe out all he has gained for temporary profit. Dr. Lowe has been visiting Polk County for more than 19 years and can furnish a score of references. Consult him about your eyes and glasses on Friday, July 28, in the Independence Hotel. Remember the date.

Mr. S. W. Leonard, who lives six miles south of Independence, was in on Saturday and gave the Enterprise office a pleasant call. Mr. Leonard is surely a hustler of the old time kind. He had always lived in the city until a year ago, when, becoming weary of the grind, he bought this farm on which he now lives. The land is very fine but had no buildings on it. He lived in a tent and went at it with all his might to get a home. He built him a good seven roomed house, a comfortable barn and all kinds of out houses; he had cut some 300 cords of wood and himself hauled it to Independence and Monmouth. This year his crops are fine and he will make at least 75 tons of hay. Amid it all the best thing is that he and his family are content and happy on the farm. We congratulate this earnest young man and wish we had hundreds more like him on this fine land.

Kidney Diseases are Curable

under certain conditions. The right medicine must be taken before the disease has progressed too far. Mr. Perry A. Pitman, Dale, Tex., says: "I was down in bed for four months with kidney and bladder trouble and gall stones. One bottle of Foley's Kidney remedy cured me well and sound." ask for it.

Sold by Williams Drug Co.

Electric Signs

The most conservative lines of business find a potent advertising agent in the ELECTRIC SIGN.

AN ELECTRIC SIGN secures the attention of crowds in the main traveled highways—fixes the store in the mind of the public—dovetails with the newspaper advertising and brings trade. Electric advertising is good anywhere, but it is a positive NECESSITY to a side street location.

Ask our New Business Department about INDIVIDUAL DESIGNS.
