

# Electric Signs

The most conservative lines of business find a potent advertising agent in the ELECTRIC SIGN.

AN ELECTRIC SIGN secures the attention of crowds in the main traveled highways—fixes the store in the mind of the public—dovetails with the newspaper advertising and brings trade. Electric advertising is good anywhere, but it is a positive NECESSITY to a side street location.

#### STATEHOOD BILL SIGNED.

Joint Resolution, However, Eliminates Recall of Judges.

Washington, D. C.—President Taft signed the joint resolution for the admission as states of the territories of Arizona and New Mexico at 3:08 o'clock Monday afternoon.

The resolution went to the president after Vice President Sherman had affixed his signature.

Senator Penrose, Representative Weeks, of Massachusetts, and Barchfield, of Pennsylvania, the delegates of the two territories, and a number of citizens from New Mexico and Arizona, witnessed the signing of the document by Mr. Taft. There was but one resolution, so that the president used three different pens in order that some of the relic-hunters might be satisfied.

When the resolution was laid on his desk, he looked up at the crowd around him and said:

"Has anybody read this?"

Nobody answered, and to make certain of it the president read the resolution himself.

"Well, gentlemen, it's done," he said, as he put the last stroke on the parchment.

The resolution signed by the president provides that Arizona shall eliminate the judiciary recall clause in its constitution.

#### Old Santa Fe Makes Merry.

Santa Fe, N. M.—Immediately upon receipt of news that President Taft had signed the statehood resolution, Miss Madeline Mills, daughter of Governor Mills, hauled up on the capitol staff a large flag with 48 stars.

A monster non-partisan statehood celebration took place at night in the public plaza, while the city was lit up with bonfires and a great fire on the top of Fort Marcy overlooking the city.

Among the speakers were seven judges of the supreme court, the governor and four ex-governors of New Mexico. Rough Rider George W. Armijo presided.

#### CONVICTS DIE AT WORK.

Construction of Russian Railway is Beset With Hardships.

St. Petersburg—The Amur railway line is being constructed under difficulties of climate, of soil, and above all, of labor. Most of the workmen are convicts. They appear to have given satisfaction on the central and western sections, but in other places the state of things that exists and has been witnessed by ex-Speaker Gutchkoff is almost incredible.

At Razlony, for example, the work is directed by the Orloff prison board, which has no knowledge of the place or the people, and pins its faith to drastic measures against the men. If a convict is disrespectful the officer in command simply empties his revolver in the fellow's face. Prisoners who are obviously ill are taken to work. M. Gutchkoff saw many such workmen hard at work, although they were suffering from scurvy in an advanced degree.

The food is unfit for use. The prisons in which the men are confined would disgrace any other country. One gang of workmen, all of whom were ill, had to do without any kind of warm food for eight days. The doctor reported in another place that one of the men was dying of hunger.

#### ZAPATA ATTACKS FEDERAL.

Rebel Leader Accused of Making False Promise to Surrender.

Mexico City—A fight has occurred between the Federal troops under General Huerta and the followers of Emiliano Zapata, at Cuatlixco, according to meager dispatches reaching this city. Unconditional surrender was demanded of Zapata by the Federal government. Following an agreement between Madero and Zapata, the latter appeared to believe that the Federal demand would be withdrawn, in view of his promise to submit to disarmament. He sent a detachment of his men to oppose the advance of Huerta. The forces met late in the afternoon. At the department of the interior it was asserted that no agreement had been made with Zapata and that none would be made. The opinion was expressed that he was deceiving Madero with false promises of surrender.

#### Model Prison Is Failure.

Pekin—There has been a model prison in Wuchang, but it has turned out to be far too expensive. It is lighted throughout with electricity, and the food given to the prisoners was better than what they got at home, so that a great many became permanent residents. It has been resolved to reduce the expenditures by a considerable sum monthly, to remove electric lights and withdraw a number of the jailers. For food each prisoner will in future get two bowls of coarse rice, and also will provide his own clothes.

#### Shark Gorged With Junk.

Lewes, Delaware—A curious assortment of bric-a-brac is on exhibition here, all of it found in the stomach of a man-eating shark, 17 feet in length, caught at the mouth of Delaware bay by the crew of lightship No. 69. The invoice of the shark's interior furnishings includes one umbrella, one barrel stave, a quantity of steel and iron junk of different kinds and enough oil-cloth to cover the floor of a good-sized kitchen.

#### Two Die in \$1,000,000 Fire.

Frankfort, Germany—The Opel Sewing Machine and Bicycle factory at Russelheim was destroyed by fire. Two persons perished and many were injured. The loss is more than \$1,000,000.
