Why We Are Offering the HULL UMBRELLA With Detachable and Interchangeable Handle it Place of the Old Style . . .

First:— Because the HULL detachable idea is so intensely practical that every one realizes without being told that it is the only vital improvement that has been made on umbrellas since they were first conceived.

Second:— Because our customers are progressive and quick to adopt a progressive principle like HULL handle, and resent an attempt to offer any article which has out lived its usefulness.

Third:— Because in place of just offering an umbrella without a name or a reputation, the people are delighted with the idea that they can come to our store and get a trade marked, advertised "HULL," and that no matter what price they may pay for it, they will get the longest lived and best umbrella that brains and money can make to sell at that price.

When purchasing an umbrella for yourself or for a gift purpose without one additional cent expenditure you can procure from us this HULL UMBRELLA the worth of which is nationally unknown
