Contest Progresses Rapidly

Probably on account of the inclement weather during the latter part of the preceding week, the success of the Enterprise Piano Contest appeared to be temporarily retarded, but interest has again been awakened and contestants are working fast and furious for the prizes. Miss Burton remains in the lead by several thousand and Mrs. McIntosh has taken her place as second in the race with Miss Fishback holding third.

Were the final count to be made now, Miss Burton would receive the piano, Mrs. McIntosh the tailored suit, Miss Fishback the gold necklace and locket, Mrs. Kurre the rocker and Miss Porterfield the toilet set. But during the next two weeks there is likely to be a great change in conditions, and it would be difficult at this time to place even a guess as to the winning contestants.

As an inducement for contestants to make special efforts during the ensuing week we will give four years' subscription to the lady handing in the most votes between now and Friday noon, November 24th, or to any person or persons whom she may name and the votes will be placed to her credit accordingly. This will give the contestant an opportunity to increase her standing 6,000 votes besides getting the home paper for a term of four years, or for her friend or friends.
