

Your Prescriptions

YOU CERTAINLY WOULD NOT EMPLOY A PHYSICIAN IN WHOM YOU DID NOT HAVE THE UPMOST CONFIDENCE.

And yet his prescriptions are not worth the paper they are written on until they have been filled at some drug store, and filled right. That is why it is as important about the selection of your drug store as it is to be careful about selecting your physician. A little carelessness in filling prescriptions, or in the use of stale, inert drugs may defeat the physician's purpose at a critical time with serious results.

The best physicians in this locality send their patients to us to have their prescriptions filled, because the medical profession knows how particular we are in filling prescriptions. If you will phone us we will send for your prescriptions and deliver them to you as soon as we can possibly fill them.

C., "three bottles drove all the malaria from my system, and I've had good health ever since." Best for all stomach, liver and kidney ills. 50 cents at all druggists.
