Every drain pipe in the home—sink, toilet, bathtub—should be flushed once a week with hot water and Babbitt's Lye. This little attention means cleanliness, purity of atmosphere; often saves plumbing bills and prevents sickness. A mere disinfectant destroys only the odor while the dirt and grease remain.

Babbitt's Lye
dissolves the filth and removes the cause of bad odors and disease germs.

The Babbitt Pry-off-top Can keeps the Lye good until used.

Trade-marks from all Babbitt Cleansing Products are good for valuable premiums.
