Real thoroughbred fox hounds trained to the hunt are to be seen and heard close in pursuit of slinking coyotes, stealthy timber wolves or sprightly jackrabbits by reason of a contract which has just been entered into by local the association and Leon B. and J. He was of the opinion that Maza had been urged on by others who had made him think he had been insulted and that he should seek revenge.

Under no circumstances, no matter what his provocation may have been, said the minister, was Maza justified in the action he took. That justice would be done in the case was the declaration of Senor Martin-Rivero.

The minister has notified his gov ernment of the demands of the United States that the assailant be punished. As soon as he learned of the attack the minister "spontaneously sent word to Cuba," he said, "that the United States had laws rendering virtually immune from attack the person of foreign representatives here and that, on account of this reciprocity, the full rigor of the Cuban laws could be applied. In case of a country which does not protect Cuban representatives," said the minister, "no further rights are extended to its diplomats than to any other foreigner.'
