

IT COSTS "Credit Stores" MORE

To do business than "Cash Stores" and then someone must pay for the losses from bad accounts.

The merchant can't afford to stand the loss so he charges it up to his customers who do pay. Of course the extra charge is concealed in the price but it's there just the same.

You'll realize how much you really pay for the "Few Day's Accommodation" at a credit store if you will compare our prices, which are based on the spot cash plan, with "credit store" prices.

Reliable Merchandise at prices that "credit stores" can't match is the foundation of our success.

We are now showing a splendid line of

WHAT IS CHIROPRACTIC?

All parts of the body are controlled through the Nerves. Interference with Nerve impulses causes Disease. CHIROPRACTIC is the Science and Art of removing the interference with Nerve impulses, thereby allowing nature to cure the disease. A few of the many diseases cured by CHIROPRACTIC: Appendicitis, Constipation, Female Diseases, Fevers, Gall Stones, Gout, Headache, Neuralgia, Paralysis, Piles, Rheumatism, Spasms, and the various diseases of the Stomach, Liver, Kidneys, and nerves.

DR. D. G. REMPEL,

Chiropractor, and Nerve Specialist, a Graduate of the Pacific College of Chiropractic, Inc., of Portland, Ore. Monday, Wednesday and Friday.—Hours: 9:30 a. m. to 2:00 p. m. Opposite Depot, Independence, Oregon

WHEN EVERYTHING IS RUNNING SMOOTHLY about your auto, how much better you enjoy your outing. When you know that we've looked it over and you don't have to worry about this, that or the other thing getting out of order. What a satisfaction to you. Be on the safe side and bring your car here before starting out.

THE INDEPENDENCE GARAGE,
S. H. Edwards

Our Feed Will Put GO into any horse to whom it is given regularly.

Because

It is the SOUNDEST, RIPEST and CLEANEST Feed to be had. You know that good eating improves a man's physical condition. Learn what good eating will do for your horse by giving him our feed.

JOHN DEERE SPREADER

The Spreader with the Beater on the Axle

The Simplest Spreader Made

Entirely New .. Nothing Else Like It

THE JOHN DEERE SPREADER—The Spreader with the Beater on the Axle—is as much of an improvement in spreader manufacturing as the self-binder was over the old reaper. It is made along entirely new and different lines from the ordinary spreader.

The first manure spreader ever made was built in 1878 by the Kemp & Burpee Manufacturing Company. Up to the time of the John Deere Spreader every spreader has been made along the same general lines as this first machine. Power was taken from one end of the main axle and transmitted, either through chains or gears, to the beater, mounted above and in the rear of the axle. Heretofore the only improvement in manure spreaders since the first one was made in 1878 has been in the refinement of details.

The John Deere Spreader is a radical departure from the old method of construction. It is made along entirely new lines and is a great improvement over the old style spreader. Come in and examine the machine and you will readily see why the John Deere Spreader is so far superior to any spreader heretofore constructed.

Even if You Don't Need a New Spreader Now come in and get one of our spreader books. They contain a number of articles on why farm manure should be used on the land, how it should be applied, how it should be stored, the value and effect of using it in various ways. In addition there is a detail description of the John Deere Spreader with illustrations in colors of this spreader working in the field.
