**What Sterne Said.**

Sterne once said that the most accomplished way of using books is to serve them as some do lords; learn their titles and then brag of their acquaintance.

**Love That Endures.**

Remember, that there is sometimes a fine love that never leaves a man's heart. It stays and waits!—Manchester Union.

**FREE ADVICE TO SICK WOMEN**

Thousands Have Been Helped By Common Sense Suggestions.

Women suffering from any form of female ill are invited to communicate promptly with the woman's private correspondence department of the Lydia E. Pinkham Medicine Co., Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence. A woman can freely talk of her private illness to a woman; this has been established a confidential correspondence which has extended over many years and which has never been broken. Never have they published a testimonial or used a letter without the written consent of the writer, and never has the Company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which they have to draw from, it is more than possible that they possess the very knowledge needed in your case. Nothing is asked in return except your good will, and their advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass.

Every woman ought to have Lydia E. Pinkham's 80-page Text Book. It is not a book for general distribution, as it is too expensive. It is free and only obtainable by mail. Write for it today.

**DAIRYING DURING FLY TIME**

Two Most Needed Things Are Sprayer and Repellent—Cool Blanket Is Also Beneficial.

(By M. A. COVERDELL)

A good sprayer and reliable fly repellent will pay for themselves about twenty times during the fly season, to say nothing of the comfort afforded the animals and the satisfaction you will derive from milking a quiet cow. If you don't feel like investing in a spraying outfit, have your wife make you a long, cool blanket out of cheesecloth or some other light material and spread it over the cow while milking. This, however, is beneficial at milking time only. The one thing that will prevent the flies from sucking the life blood and consequently the milk from the best of your herd, is to spray, and spray thoroughly while you are at it. See that the cows have some sort of good shade. They simply cannot stand out in the scorching heat all day and do as well as they would if protected from the midday sun.

If natural shade is not available, it will take you but an hour or so to set some tall posts and make a satisfactory shade out of small brush, old straw or boards. The cows must have shade. Too many farmers let their cows rustle water from foul sloughs or from a tank filled with water warm enough to wash dishes in. This is not merely a question of comfort and satisfaction to the cows. Neither is it necessary simply to add to your dairy products. Sanitation demands that the principal element entering into the composition of milk be strictly pure—free from every vestige of disease or filth.

**ANOTHER STOOL FOR MILKING**

Directions for Making Light and Convenient Device by Anyone Handy With Tools.

In a recent issue I noticed some cuts of milking stools, so I thought I would send you a description of mine. I have used such a one for many years and find it very handy, writes A. O. Toune in the Wisconsin Agriculturist. The side pieces are of inch stuff, 3 inches wide by 20 inches long. The

Handy Milk Stool.

seat, 10 by 11 inches, is nailed across the top of the side pieces. The board for the pail, 8 by 11 inches, is nailed across the under side of the side pieces so that the pail is 4 inches lower than the seat of the milker. The back legs are 2-inch pieces, 11 inches long, and the front leg is a round piece attached by nailing a small piece of inch board below the pail rest, and boring a hole through both boards. This stool is light and handy, and easily made by a boy handy with tools.

**Protect From Flies.**

Remember that it takes as much energy and feed to fight flies as it does to grow a calf. Then will it not pay to cut out the flies by giving the calves access to a dark stable or shed, and also apply a little "fly dope." You may rest assured that they will grow and lay on flesh twice as fast from now on if they are afforded a means of thus protecting themselves than they otherwise could possibly do.

**DAIRY NOTES**

Don't give the calves too much skim milk these days. Clean mud off of the cows' udders and flanks before milking. The hand separator must be washed and scalded twice a day now. The separator should never be allowed in the barn or near it. Milk from a fresh cow is good for the table after the ninth milking. Don't neglect regularity in milking just because other work is pressing. A good cow is hard to buy nowadays. The only alternative is to raise her.

Never attempt to keep summer butter for early fall prices because it will not keep.

Cows fed well before turning them on a heavy forage crop will not be in danger of bloating. Sometimes a dose of Glauber's salts will cure a case of bloody milk. Depends on the cause.

For a cow that refuses to let down her milk, a feed of something while milking is often helpful.

The production of high grade dairy products without a plentiful supply of ice is next to impossible. A little hay for the cows to pick at will help keep the bowels in normal condition, while grass is watery. Skim milk fed to shoats with grain is worth about 40 cents per 100 pounds at present prices of hogs.

Four ounces of paregoric in two doses, given at over 24 hours apart, has been recommended as a cure for scours in cows. A half dozen window sash glazed will make a dustproof box in which the dairy vessels can be sunned and kept absolutely clean.

**INDUSTRIAL DEVELOPMENT AND PROGRESS OF OUR HOME STATE**

SHOWS STATE'S INDUSTRIES. DEEPER RIVER IS TOPIC. Albany Calls Conference of Valley Cities on Subject.

Maps in Forthcoming Book of Great Statistical Value.

A valuable statistical description of the state of Oregon, its resources and its industries, will be provided in a booklet now being prepared under the direction of the Oregon State Immigration commission and its chief officer, C. C. Chapman, state immigration agent. The first edition will be out about November 1 and will be 500,000 copies.

This book will be the first reliable record or condensed statistical compendium of the resources and industries of the state that has ever been prepared. Every figure and statement will be based upon data which has been obtained from every available source of national, state and local records, and will have been rechecked several times and revised to present date, so far as possible.

The only illustrations will be 13 maps showing complete statistical directions upon the following public themes: Educational institutions of the state, creameries, cheese factories and condenseries, precipitation map, map showing the distribution of population by counties, map showing rural population distribution, a compendium of the forest reserves in Oregon and separate maps locating the distribution of swine, horses, dairy cattle, beef cattle, minerals, railroads and fruits. Each of these maps will cover half a page in a 92-page book with pages sized 5 1/2 by 8 1/2 inches.

There will also be brief descriptive articles upon the soil, climatic and geographical qualities of Oregon, written by eminent authorities upon those special lines. The book has been arranged by Lester Davis, of Salem, who has served as active editor. Many of the maps and figures were prepared by the department of animal husbandry at the Oregon Agricultural college.

The pamphlet was designed primarily to benefit and inform the prospective Oregon immigrant, but will be for free distribution within the state, and will serve as a valuable reference book for everyone. It will be bound in paper and be fit for use as a text book in the public schools. Many applications have been received already by the commission from persons who knew that the book was in the process of production. Their names will be placed upon the waiting list preparatory to the first distribution.

Issuance of the book and an appropriation of \$25,000 to cover the cost of publication was authorized by an act of the 1911 legislature. However, there was no provision in the bill making anyone responsible for the disbursement of funds, so Governor West refused, temporarily, to release the funds, although he approved the passage. It was not until last April that he designated C. C. Chapman, state immigration agent, to superintend the publication. Since that time the book has been in the process of preparation. The state will pay the cost of distributing 200,000 copies. The Southern Pacific railroad has ordered a purchase of 100,000 for its own distribution and the Hill officials are contemplating a similar order.

**Potato Harvest Begins.**

La Grande—To accommodate the immense potato crop of the Elgin country, H. H. Weatherspoon is building a frost-proof addition to his warehouse in Elgin. The addition is 240x40 feet and will house 410,000 sacks of potatoes. The potato digging will begin at once, and a hundred or more men will be needed to care for the crop. The excellent prices obtained for potatoes last year and the publicity gained by that neighborhood by its shipment of a full trainload of potatoes to Kansas City has given impetus to the industry, which has caused the planting of several hundred acres.

**Waldport After Creamery.**

Waldport—Waldport is elated over the prospect of a fruit cannery here next year. Parties have been looking for a site. The coast counties are especially adapted to the raising of small fruits and vegetables, but owing to the cost and risk of transportation the farmers at present produce only enough for home consumption and local trade. Wild berries such as blackberries, blue and red huckleberries and blueberries grow in great abundance and their product harvested would amount to hundreds of thousands of gallons.

**To Have Wireless Station.**

Oregon Agricultural College, Corvallis—A wireless station is to be established at the Gamma Upsilon fraternity's new home on Eighth and Harrison streets in Corvallis, and two of the O. A. C. students who live there are to operate it. They were employed as Marconi operators during the summer, and now wish to give the service of a sending and receiving station to the eighteen other young men of the fraternity who will move into the new club house about October 10th.

**One Potato Produces 68 Pounds.**

Dallas—Thirteen proved a lucky number when Miss Ruth Miller cut up one Koplinner potato a few months ago and planted the "eyes" in 13 individual hills. The result was 68 pounds of potatoes, large, clean-skinned white potatoes, which have been exhibited in the Polk county school children's exhibit at the State fair. But for the fact that a gopher cleaned out one hill a larger yield would have been returned.

Albany—A conference of representatives of the cities of the Upper Willamette valley will be held in this city to consider proposed plans for the improvement of the Willamette river, whether to concentrate all efforts toward the proposed system of locks which will insure a six-foot channel in the river, or to work for the present for the improvements recommended by the United States engineer corps, which will give a 3.5-foot channel.

The commercial clubs of Albany and Corvallis have decided heretofore in favor of devoting present efforts to the lesser project, and, with it completed and all-year traffic as far as Corvallis assured, then working for the six-foot channel plan. Commercial bodies of other cities are discussing the question, and this conference has been called to outline a plan of action on which all of the cities of the valley can unite.

The Albany Commercial club, in its meeting, decided to call this conference, and an invitation will be sent out to the commercial bodies of all the cities of the Upper valley. The club will also invite Representative Hawley and Major McIndoe, of the United States Engineer corps, to attend the conference and outline plans for river improvement. Both have signified a willingness to come.

**FAIR DRAWS CROWD.**

Best Products of Old Yamhill County Are on Display.

McMinnville—The first day of the Yamhill County School Fair and Stock Show opened here with the largest attendance for the opening day ever had and the exhibits on display at the pavilion exceed all others heretofore. Garden products, stock, colts, horses of every description, cattle and everything that farmers produce came pouring in until late, and many are still to come. Some farmers utilized their automobiles to bring in poultry, large baskets of plants, fruits and every variety of the vegetable kind. And every road leading into McMinnville was crowded with wagons loaded to capacity with the farmer's "best." If anyone doubts the statement that Yamhill county is a garden spot he should enter the pavilion for a quarter of a day while everything is to the front.

**SALMON CANNING ON.**

Cooz Bay Season Promising With Two Plants in Operation.

Marshfield—The salmon canning season on Cooz Bay has started and the run promises to be a big one. Two canneries will be operated on the bay. One is at Empire and is owned by the Southern Oregon company, and the other is in Marshfield and was this year purchased by W. E. Tallant, of Astoria. The salmon this year are especially large and fine. About four tons a day are now being brought to this city, but soon it is expected that the catch will be much larger. Many fishermen are engaged in the work. The Tallant cannery is trying a new experiment, employing young women instead of Chinamen to do the work. The young women employed were brought here from Eureka. On the Coquille river the run is larger this year than ever before and two canneries there are kept busy. The fishermen will make big money this season.

**Old Willamette Growing.**

Willamette University, Salem—At the close of the first day's registration a heavy increase in students over the corresponding time of a year ago is recorded. Three more days remain for registration and the attendance is certain to be far in excess of anything old Willamette has ever experienced. The boys' and girls' dormitories are already filled, every room being taken. Lausanne hall, the young women's dormitory, as the result of refinishing another floor, is now accommodating a third more girls than last year.

**Express Company Follows Law.**

Salem—The Northern Express company has reported to the State Railroad commission that it has never sent liquor shipments c. o. d., either interstate or intrastate, that it has way-billed such shipments accurately as to classification and that there has been no false billing of such shipments, nor have such shipments been sent to fictitious consignees.

**White Lilies in Bloom.**

Albany—A white lily tree full of blossoms is the September novelty in the yard of Mrs. Margaret Keifer in this city. On the first day of August Mrs. Keifer picked off all the dried-up spring blossoms and all of the leaves from the tree, and soon afterwards it began to bud out anew. Now the tree is literally full of beautiful blossoms and is attracting considerable attention here.

**Klamath Falls Gets Roundhouse.**

Klamath Falls—The Southern Pacific company has selected the site, not far from its freight depot here, for a five-stall roundhouse. It will be built in such a manner that it can be added to as the road progresses from this point. This indicates the intention of the company to make this a division terminus and means an increasing payroll for company employees at this point from year to year.

**W.L. DOUGLAS SHOES**

**\$3.00 \$3.50 \$4.00 \$4.50 AND \$5.00**

FOR MEN AND WOMEN

Boys wear W. L. Douglas \$2.00, \$2.50 & \$3.00 School Shoes, because one pair will positively outwear two pairs of ordinary shoes, same as the men's shoes.

W. L. Douglas makes and sells more \$3.00, \$3.50 & \$4.00 shoes than any other manufacturer in the world.

**THE STANDARD OF QUALITY FOR OVER 30 YEARS.**

The workmanship which has made W. L. Douglas shoes famous the world over is maintained in every pair.

Ask your dealer to show you W. L. Douglas latest fashions for fall and winter wear, notice the short vamps which make the foot look smaller, points in a shoe particularly desired by young men. Also the conservative styles which have made W. L. Douglas shoes a household word everywhere.

If you could visit W. L. Douglas large factories at Brockton, Mass., and see for yourself how carefully W. L. Douglas shoes are made, you would then understand why they are warranted to fit better, look better, hold their shape and wear longer than any other make for the price.

**CAUTION.**—To protect you against inferior shoes, W. L. Douglas stamps his name on the bottom. Look for the stamp. Beware of substitutes. W. L. Douglas shoes are sold in 78 countries and shoe dealers everywhere. No matter where you live, they are within your reach. If your dealer cannot supply you, write direct to factory for catalog showing how to order by mail. Shoes sent everywhere, delivery charges prepaid. W. L. Douglas, Brockton, Mass.

**REDUCE YOUR LIVING EXPENSES**

Eat Golden Cereal Foods and recommend them to your acquaintances. You get better quality and more for your money. They are made in your home state from the best Oregon Oats and Wheat. Large packages contain a Handsome Premium and all goods are guaranteed. Ask your grocer.

Golden Rod Oats. Golden Rod Pancake Flour. Golden Rod Wheat Flakes. Golden Rod Bran. Golden Rod Wheat Nuts. Golden Rod Chick Food.

**Spolling Children.**

Little children give their mother the headache; but if she lets them have their own way, when they grow up to be great children they will give her the heartache. Fondness spoils many, and letting little faults alone spoils more. Gardens that are never weeded will grow very little worth gathering. All watering and no hoeing will make a very bad crop. A child may have too much of its mother's love and in the long run it may turn out that it had too little.—C. H. Spurgeon.

**Pettit's Eye Salve FOR ALL SORE EYES**

**Diver Seized by Octopus.**

A naval diver at Toulon was suddenly attacked by a giant octopus while under water in the harbor. He gave the hoisting signal and was hauled to the surface, together with the octopus, whose tentacles, said to be 25 feet long, were wrapped around him. The diver was unconscious. The octopus held fast to the diver until it was stabbed to death. It weighed 135 pounds, and the suckers on its tentacles were as big as half-dollar pieces.—London Mail.

Red Cross Ball Blue will wash double as many clothes as any other blue. Don't put your money into any other.

**Good Voice to Be Prized.**

A soft, well-modulated voice is of far greater assistance in the world, even in the marriage market, than personal beauty. There are few things which possess a more definite value as a commercial asset than graciousness of manner and gentleness of tone. We are not born with harsh voices, we acquire them.—Exchange.

Mothers will find Mrs. Winslow's Soothing Syrup, the best remedy to use for their children during the teething period.

**Clothes.**

He—"Did you ever observe what a difference clothes make on one's mind? Now, when I am in my riding togs, I'm all horse; when I have on my business suit, my mind's full of business; when I get into my evening dress my mind takes a purely social turn." She—"And I suppose that when you take a bath your mind's as utter blank?"—Stray Stories.

Red Cross Ball Blue, all blue, best bluing value in the whole world, makes the laundress smile.

**Making Opportunity.**

When the young physician's motorcar reached the scene of the accident there was nothing to do; all the victims had been so slightly hurt that they were able to walk home. The young doctor was keenly disappointed, but his chauffeur spoke up cheerfully: "Never mind, doctor, I'll run down some business on the way home."

**Some Proof.**

"So he took you out auto riding the other evening?" "Yes, what of it?" "Do you think he is in love with you?" "I think so. I know that every time I spoke to him the auto tried to climb a tree or jump a fence."—Houston Post.

**Coughs and Colds**

You could not please us better than to ask your doctor about Ayer's Cherry Pectoral for coughs, colds, croup, bronchitis. Thousands of families always keep it in the house. The approval of their physician and the experience of many years have given them great confidence in this standard cough medicine. Sold for seventy years.

Any good doctor will tell you that a medicine like Ayer's Cherry Pectoral cannot do its best work if the bowels are constipated. Ask your doctor if he knows anything better than Ayer's Pills for correcting this sluggishness of the liver. Made by the J. C. AYER CO., Lowell, Mass.

**"A confession of faith"**

If you have trouble with your Stomach, Liver or Bowels, feel run-down and in need of a tonic, we urge a trial of

**HOSTETTER'S STOMACH BITTERS**

Your faith in this medicine will not be misplaced. It will surely help you. Be convinced today. All Druggists and Dealers.

**Had Johnson Stumped.**

Doctor Johnson and Macklin were arguing a literary question, when the former quoted Greek. "I don't understand Greek," said Macklin. "The man who presumes to argue literature should understand every language," replied Johnson, severely. Whereupon Macklin began reciting off a string of Gaelic, and for once Johnson had nothing to say.

**Gold Hoarded in Turkey.**

Throughout the Turkish empire, especially in the rural districts, gold is hoarded in the form of jewelry.

**NEW HOTEL PERKINS**
