

are as necessary to the cure you are trying to effect as your doctor's advice. For if the prescription he gives you is not filled in the right way by the use of fresh drugs and careful compounding, all his ability cannot aid you. Bring your prescription to a pharmacy where not only the highest skill is used but where we pride ourselves, as professional men, on the purity and freshness of our drugs.

By helping your physician in this, as in other things, you make that cure quick and certain.

WANTED TO SHIP WOOL TO THE U. S.

Australian Sheep Raisers Anxious for Democratic Victory.

From the Glasgow, Mont., Independent.

The Hon. James Bryce, British ambassador to the United States has been in Australia this summer, and in a recent speech at Melbourne he cheered the hearts of the Australian wool growers by telling that there was prospect of an early reduction in the American wool tariff. This, he predicted, would mean a large increase in the wool exports from Australia to the United States.

The ambassador is right. That is just what will happen if the wool tariff is lowered, and the Montana sheep men know, because they remember what happened in 1894 when wool wasn't worth anything and when sheep were worth even less. When the Democratic members of the ways and means committee of the house, in the recent session of congress, presented their wool bill for consideration, they claimed that it would increase the imports of wool into America by 190,000,000 pounds.

But there can be no increase in the consumption of wool and the American grower is wondering what would become of 190,000,000 pounds of his wool under the Democratic tariff laws. Nearly 30,000,000 of that 190,000,000 is grown right here in Montana. It is no wonder that England is urging the election of a Democratic congress and that London looks with favor upon the candidacy of Woodrow Wilson.

President Taft's Dignified Attitude.

From the Quincy (Ill.) Whig: President Taft has old-fashioned, but nevertheless admirable ideas regarding the dignity of his official station. He believes that it fits the incumbent of the high office he occupies to take the stump and argue with the people that they should reelect him. The record of his administration is an open book, and if that record does not commend him to the favor of his country he will not go forth and importune voters to give him another term. The president's attitude is an admirable one.

ELMER E. PADDOCK

Republican Candidate for Representative, Eleventh District, Polk County.

Signed Statement No. 1: oppose extravagant and unnecessary appropriations; favors tax exemption on household goods.

No. 72 on the ballot.

To the Voters of Polk County

Promises are easily made and too easily broken, but this I have to say: If elected to the office of sheriff I will give to the people of Polk county the very best that is in me. I respectfully solicit your support. John W. Orr.

Carl C. Kratzenstein, Mgr. J. G. Tanner Drug Store, Santa Cruz, Calif writes: "We have sold Foley & Company's medicines for the past 20 years and have yet to hear our first complaint, or a dissatisfied customer. Their remedies are pure, made as represented, and contain no injurious substance. On the contrary, our experience shows us that the Company's aim has always been to make health giving and health maintaining remedies."—Williams Drug Co.

It's The Way You're Treated that makes you come back or stay away from a drug store. Courteous treatment, quality and price are the three factors concerned.

Does Your Druggist

Greet you cordially, wait on you promptly and thank you kindly for your patronage

Does he give you what you call for and not attempt to sell you something just as good or better

Does he give your money's worth in every sense of the word

If we are your druggist he does.

We do not make any statements either about our competitors or predecessors or our successors. But we do say that we are growing because we deserve to grow and always welcome comparison of our quality and price with others.
