THE CHINESE DOCTOR

Both the American and the Chinese physicians use medicines made from plants and herbs. But the Chinese have extended their researches and use Roots, Herbs and Barks that have never been heard of in this country. And with these harmless and non-injurious remedies Dr. C. Gee Wo has cured hundreds of patients of all sorts of diseases and who had previously been taking the medicines prescribed by well known American physicians. He has testimonials from patients all over the northwest as to the fine results he obtained with the use of these nature remedies. Should you live out of town and wish to begin treatment, send 4 cents in stamps for a consultation blank and circulars.

Office open evenings and Sundays.

FOR COUGHS AND COLDS

Cough, Cold Sore Throat

Sloan's Liniment gives quick relief for cough, cold, hoarseness, sore throat, croup, asthma, hay fever and bronchitis.

HERE'S PROOF.
MR. ALBERT W. PRICE, of Fredonia, Kan., writes: "We use Sloan's Liniment in the family and find it an excellent relief for colds and hay fever attacks. It stops coughing and sneezing almost instantly."

SLOAN'S LINIMENT

RELIEVED SORE THROAT.
MRS. L. BREWER, of Modesto, Ill., writes: "I bought one bottle of your Liniment and it did me all the good in the world. My throat was very sore, and it cured me of my trouble."

GOOD FOR COLD AND CROUP.
MR. W. H. SERANGE, 3721 Elmwood Avenue, Chicago, Ill., writes: "A little boy next door had croup. I gave him Sloan's Liniment to try. She gave him three drops on sugar before going to bed, and he got up without the croup in the morning."

Make Little of Life's Ills.
To be poor is not always pleasant but worse things than that happen at sea. Small shoes are apt to pinch but not if you have a small foot; if we have little means it will be well to have little desires. Poverty is no shame, but being discontented with it is. —Charles H. Spurgeon.

Unfortunate English.
The general impression that the Englishman's life is rather prosy is supported by the statement of a Londoner who visited at Clay Court. He said he never had tasted fried chicken or strawberry shortcake, the two being unknown to the culinary art in his country. —Kansas City Star.

Red Cross Ball Blue gives double value for your money, goes twice as far as any other. Ask your grocer.

Apology.
Confuser—"Now, sir, you admit that the card you have just taken out of the handkerchief is the queen of clubs, yet the card you chose and securely tied there—namely, the ace of spades—I now produce from this hat." Timid Volunteer—"So sorry—my mistake." —Punch.

The Current Craze.
"A great many old plays are being fitted out with alleged melodies and sent out as operettas." "That's right. But they're going too far. I know of one actress who is going to star in a musical version of the multiplication table."

Somewhat Contradictory.
In America, says the Louisville Courier-Journal, a school teacher works, upon the average, for about half as much as a bricklayer, and has to tell the boys that education is a necessity if they would get on in life.

Philanthropic Penology.
"What is that open-air structure you have inclosed with mosquito netting?" "That," replied Farmer Cornstossel, "is our village jail." "But you want iron bars for a jail?" "Not here. Anybody we put in there will be no thankful to get away from the mosquitoes that he wouldn't think of leaving."

All Have a Duty.
Every man or woman is one of mankind's dear possessions; to his or her just brain, and kind heart and active hands, mankind intrusts some of its hopes for the future. —Robert Louis Stevenson

For the Hair

Are you so fortunate as to be well satisfied with your hair? Is it long enough, thick enough, rich enough? And your hair does not fall out? Well, well, that is good. But you may know of some not so fortunate. Then just tell them about Ayer's Hair Vigor. They will surely thank you after using it if not before. Remember, it does not color the hair. Show the list of ingredients to your doctor. Let him decide their value. He knows.

THE SCRAP BOOK

CAUGHT BY LETTER BOX.

Last winter a well-known Vienna lawyer went out to post a letter. He was wearing a large signet ring on the little finger of his right hand, and as he pushed the letter through the slit of the letter box this caught and held his hand fast. All efforts to release himself proved fruitless. Within 10 minutes the whole street was blocked by an enormous crowd and he was the center of a storm of chaff. The police had to come to the rescue to keep the people back, but they could do nothing to release the prisoner. Not even the police dared meddle with a letter box. It was not until authority had been obtained from the head postoffice that workmen were allowed to unscrew the box and take it to pieces and to release the unfortunate lawyer. —The Strand.

ADVERTISING BY AIRSHIP.

A novel form of advertising has just been inaugurated by a large retail trading firm in Berlin. Every other evening a large dirigible balloon flies over the leading thoroughfares of the city. Magic lanterns, placed on each side of the car, project advertisements of the various goods on to a sheet of canvas fastened to the envelope of the balloon. These advertisements can easily be read from the ground below.

The attention of the people in the streets is attracted by the noise of the engine and by powerful searchlights, which are turned on in the car, between each advertisement. The sensation caused by so unusual a sight in mid-air can be easily imagined.

VEGETABLE ELECTRIC BATTERY.

Scientists tell us that there has been discovered in the forests of India a strange plant which possesses in a very high degree astonishing electric and magnetic power. The hand that breaks a leaf from it receives instantly a shock equal to that which is produced by the conductor of an inductive coil. At a distance of six meters a magnetic needle is affected by it. The energy of this singular force varies, but in times of storms its intensity increases in striking proportion. One never by any chance sees a bird or an insect light on the electric plant; nature seems to warn them that they would find their death. —Christian Herald.

JAPS AND AZTECS.

A party of Japs blown across the Pacific in a gale, after fearful privations landed on the American coast and were immediately arrested for landing without inspection. That seems a rather unreasonable enforcement of the law. By the way, the incident seems to confirm what the Japanese scientists have claimed, that the original Aztecs of Mexico were Japanese who had been driven to this country in a gale and in the course of generations founded a race. Relics of the Aztecs in Mexico bear witness, say the Japanese scientists, of kin to a similar religion and customs held by the Japanese in their early history.

SHALLOW NORTH SEA.

The North sea is so shallow that a vessel can sail from London to Hamburg in water not more than 120 feet deep, except for one short stretch. If this depth could be decreased one-half—that is, the bottom of the North sea raised sixty feet the island of the Frisian shore would be linked together in an even coast line, a belt of land ten miles broad would be added to the Danish coast, a multitude of low islands would spring up off the English and Belgian coasts and a great island would rise up in the Dogger bank.

BEES IN ENGLISH CHURCH.

Several thousand bees and a store of honey weighing, it is estimated, at least a hundred weight, have been discovered among the rafters of Roxeth parish church, Harrow. During the recent hot weather members of the congregation noticed honey trickling down a wall of the church and this led to the discovery of the bees and their store. The honey was afterward removed in pails and the bees were hived elsewhere. —London Chronicle.

AUSTRALIAN WOMAN JUDGE.

Miss Nancy Isaacs, whose appointment as associate to her father, a high court judge in Australia, we recently chronicled, has just taken her seat on the bench. The press is inclined to be eulogistic on the way in which she performs her duties, and she has been especially congratulated on her manner of administering the oath, which is said to stand out in sharp contrast with the prosaic and careless method with which that ceremony is usually performed.

Time Saved.
In a large family, where there are many children, much loss of time and annoyance is saved if, before putting stockings into the wash each week, each person will tack the two stockings of each pair at the heels, says Suburban Life. There is no trouble in trying to mate them afterward, as each person may use a different colored thread.

No Good Thing is Ever Lost.
Remember that truth, the most important and encouraging of all truths. Your life may not seem worth while, the sacrifices that you make for others may not seem worth while. But no good thing is ever lost. And he who does his duty contributes forever to the sum total of that which is good in the universe.

Real Test.
There is something finer than to do right against inclination, and that is to have an inclination to do right. There is something nobler than reluctant obedience, and that is joyful obedience. The rank of virtue is not measured by its disagreeableness, but by its sweetness to the heart that loves it. The real test of character is joy. For what you rejoice in, that you love. And what you love, that you are like. —Henry van Dyke.

Quite Another Thing.
"What makes you so sleepy today, old man?" "I was up at 4 this morning." "Come off! You never got up at 4 in your life." "I didn't say I got up; I said I was up." —Boston Evening Transcript.

Petit's Eye Salve

Accentuating Plant Characters.
It has been found that under red light (light through red glass) plants become more robust than in any other. They also become more pronounced in their chief characters—the leafy plant becomes more leafy, all shades of green become more pronounced, the sensitive plant more sensitive and all in every way become highly accentuated.

Watch Built in a Pearl.
A tiny watch, which has been made inside a pearl as large as a big pea, has just been constructed by Gallopin & Co. of Geneva, fifteen months being spent on the work. The empty pearl weighed forty-five grains and in diameter is less than an inch. This pearl watch can be worn on a ring or as a pendant and cost \$5,000.

Home Happiness.
Probably nineteen-twentieths of the happiness you will ever have, you will get at home. The independence that comes to a man when his work is over, and the feeling that he has run out of the storm into the quiet harbor of home, where he can rest in peace and with his family, is something real.

Mothers will find Mrs. Winslow's Soothing Syrup a best remedy to use for their children during the teething period.

Poetry at the Bottom of the Mug.
"He will work," said a Tottenham (Eng.) constable of a defendant, "if he knows there is a pint of beer at the end of the job." This must have been very much the sort of thing Tennyson had in mind when he wrote "Follow the Glean."

Sore Shoulders and Necks.
Sore shoulders and necks in horses are, as a rule, due to an improper fit in collar or harness. Occasionally uneven surface or hard lumpy areas in the filling may be the cause, or improper care of the horse in early spring before the skin and underlying tissues have become hardened to the collar pressure.

As a Precaution.

First United States Stocking Factory.
The first United States stocking factory was set up at Cohoes, New York, in 1832. The machine for knitting was the invention of Lee, an Englishman, who took out a patent in 1589. The Lee machine was introduced in the Colonies during the Revolution, but a sharp Yankee improved on it, and set up the first factory at Cohoes.
