Have Lost Stock by
Thousands Through
Improper Housing

Stock-raising farmers of present times need not
be loss of even a single head if they will

insist on Most Modern Barns

YOUR BARN SHOULD BE JUST AS SCIENTIFICALLY BUILT AS
YOUR HOUSE IF YOU WANT YOUR LIVE STOCK AND CROPS PRO-
PERLY PROTECTED.

We have building plans for large or small barns and stables and can supply
the necessary material at rock bottom prices. Our advice is free and might
be helpful.
