McClain gave a reading on the "Dude from Vermont," which was greatly enjoyed by all present. Instrumental and vocal music given, and the only thing that marred the lovely evening, was the lossing of Mr. and Mrs. T. D. Dainty refreshments were served and all dispersed by singing "Auld Lang Syne" and wishing them the best of luck and glad they were not going any farther away.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.

If a woman is nervous or has dizzy spells, suffers from awful pains at regular or irregular intervals she should turn to a tonic made up of herbs, and without alcohol, which makes weak women strong and sick women well. It is Dr. Pierce's Favorite Prescription. Druggists sell it in liquid or tablets. Send 10 cents to the Invalids' Hotel, Buffalo, N. Y., for trial package. Then, for the liver and bowels nothing is so good as Dr. Pierce's Pleasant Pellets. These are little, sugar-coated pills, composed of Mayapple, leaves of aloe, root of jalap—things that Nature grows in the ground.

Ogden, Utah.—"During expectancy I suffered a severe nervous break-down. I became very weak, was nauseated and sick all the time. My mother advised me to take Dr. Pierce's Favorite Prescription. After the first few doses I could eat, something I had not done for some time. I kept on taking it and had practically no suffering and a fine large baby, weighing eleven pounds. I would advise all prospective mothers to take 'Favorite Prescription.' They could take nothing better."
