"A quart of oil"—any oil—is better than no lubrication.

But why not ask for Zerolene and know that you are getting Correct Lubrication?

By exhaustive study and actual tests the Standard Oil Company Board of Lubrication Engineers has determined the correct consistency of Zerolene for your make of automobile. Their recommendations are available for you in the Zerolene Correct Lubrication Charts. There is a separate chart for each make of car.

Zerolene is correctly refined from selected California crude oil.
