Worth More Than That Now.
On June 20, in 1632, the patent of Maryland, granted to George Calvert, Lord Baltimore, was after his death made over to his son, Cecilius Calvert. King Charles signed the new patent and gave to the grant of land the name of Maryland, in honor of his queen, Henrietta Maria. While Lord Baltimore held the grant he paid for it yearly to the crown of England two Indian arrows, which are still on exhibition at Windsor castle, England.

Calendar Facts.
The month of January always begins on the same day of the week as October and the same is true of April, and July, September and December, and February, March and November also begin on the same day of the week. This, however, is only true in normal years of 365 days. A century can never begin on Wednesday, Friday or Saturday. Furthermore, the ordinary year ends on the same day of the week as that on which it begins.

Sweet Is Sympathy.
Sympathy is one of the great secrets of life. It overcomes evil and strengthens good. It disarms resistance, melts the hardened heart, and develops the better part of human nature.

YES! MAGICALLY!
CORN LIFT OUT WITH FINGERS

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezezone applied directly on a tender, aching corn or callous stops soreness at once and soon the corn or hardened callous loosens so it can be lifted out, root and all, without pain.
A small bottle of freezezone costs very little at any drug store, but will positively take off every hard or soft corn or callous. This should be tried as it is inexpensive and is said not to irritate the surrounding skin.
If your druggist hasn't any freezezone tell him to get a small bottle for you from his wholesale-drug house. It is fine stuff and acts like a charm every time.—Adv.

Napoleon's Temper.
Defeat was so distasteful to Napoleon that, so it is recorded, when he found an opponent at chess getting the better of him he would with a quick movement sweep board and pieces off the table to the ground.

A patent has been granted for an electric shotgun in which sparks discharge cartridges that may be filled with an explosive gas or liquid as well as powder.

ALLEN'S FOOT EASE FOR THE TROOPS.

The Braganza Diamond.
The Braganza diamond is a great mystery. Very few people have ever been allowed the privilege of looking at it, and of these few some are of the opinion it is not a diamond at all but merely a wonderful specimen of white topaz. At any rate, it is generally conceded to be a diamond and is considered the jewel supreme of the crown jewels of the late reigning house of Portugal, the ancestral family of the duke of Braganza.

Daily Thought.
A man's own observation, what he finds good of, and what he finds hurt of, is the best physic to preserve health.—Bacon.

MOTHERS TO BE

Should Read Mrs. Monyhan's Letter Published by Her Permission.

Mitchell, Ind.—"Lydia E. Pinkham's Vegetable Compound helped me so much during the time I was looking forward to the coming of my little one that I am recommending it to other expectant mothers. Before taking it, some days I suffered with neuralgia so badly that I thought I could not live, but after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was entirely relieved of neuralgia, I had gained in strength and was able to go around and do all my housework. My baby when seven months old weighed 19 pounds and I feel better than I have for a long time. I never had any medicine do me so much good."—Mrs. PEARL MONYHAN, Mitchell, Ind.

Good health during maternity is a most important factor to both mother and child, and many letters have been received by the Lydia E. Pinkham Medicine Co., Lynn, Mass., telling of health restored during this trying period by the use of Lydia E. Pinkham's Vegetable Compound.

Man's Wonderful Makeup.
No difference how sour a man looks, he contains about 60 lumps of sugar of the ordinary cubical dimensions, and to make the seasoning complete, there are 20 spoonfuls of salt. If a man were distilled into water he would make about 38 quarts, or more than half his entire weight. He also contains a great deal of starch, chloride of potash, magnesium, sulphur and hydrochloric acid in his wonderful system.
