Query.—What do you think of paint as an investment, aside from the appearance it lends? Does it really PAY to paint a house regularly, say, every three or four years?

Answer.—Good paint properly applied when needed is the main thing in making a house last long and well. A house worth \$2,500 can be painted at a cost of about \$125. In 60 years that house will need about 15 paintings, the total cost of which will be \$1,875. Left without paint, such a house would fall into complete ruin in 30 years. Soaking 60 years as a basis for our figures we find that with paint a home will last that time in good condition and will cost, plus paint, \$4,375. Without paint the house would have to be rebuilt at the end of 30 years and would be ready for another complete renovation when the sixtieth year arrived. Cost, without paint, \$5,000 for a home ready to fall to pieces. Does regular painting pay? As the old Dutch adage says: "PAINT PAYS FOR ITSELF."

Query.—I have a quantity of old paint on hand. Can I use it for the first coat in repainting my barn?

Answer.—On no account should old paint which has become fat be used for priming either old or new work. Old paint in that condition is best used on a fence, brickwork or tinwork. If you value your barn sufficiently to paint it, do it the justice of a good job.

GET WELL NOW

Why suffer longer? Why "doctor" all your days under the old system that vainly tries to cure you by merely treating symptoms without removing the cause of your sickness? Take the scientific, quick road back to health instead.

Avoid Operations

Disease is caused by pressure upon nerve tissue—the tiny wires that carry the life force from brain to all parts of the body. When these are normally working, nature has the power to heal disease. Chiropractic does this, and health is the result.

Ninety-five per cent of all diseases originate at the points shown by the arrows. A slight displacement of one or more of your vertebrae probably is causing your trouble today.

- 1. Slight subluxations at this point will cause so-called headaches, eye diseases, deafness, epilepsy, vertigo, insomnia, wry neck, facial paralysis, locomotor ataxia, etc. 2. A slight subluxation of a vertebra in this part of the spine is the cause of so-called throat trouble, neuralgia, pain in the shoulders and arms, polio, nervous prostration, la grippe, dizziness, bleeding from nose, disorder of gums, catarrh, etc. 3. The arrow head marked No. 3 locates the part of the spine wherein subluxations will cause so-called bronchitis, felons, pain between the shoulder blades, rheumatism of the arms and shoulders, hay fever, writers' cramp, etc. 4. A vertebral subluxation at this point causes so-called nervousness, heart disease, asthma, pneumonia, tuberculosis, difficult breathing, other lung troubles, etc. 5. Stomach and liver troubles, enlargement of the spleen, pleurisy and a score of other troubles, so-called, are caused by subluxations in this part of the spine, sometimes as light as to remain unperceived by others except the trained Chiropractor. 6. Here we find the cause of so-called gall stones, dyspepsia of upper bowels, fevers, shingles, hiccough, worms, etc. 7. Bright's disease, diabetes, floating kidney, skin disease, boils, eruptions and other diseases, so-called, are caused by nerves being pinched in the spinal tubular at this point. 8. Regulations of such troubles as so-called appendicitis, peritonitis, lumbago, etc., follow Chiropractic adjustments at this point. 9. Why have so-called constipation, rectal troubles, sciatica, etc., when Chiropractic adjustments at this part of the spine will remove the cause? 10. A slight slippage of one or both innominate bones will likewise produce so-called sciatica together with many "diseases" of pelvis and lower extremities.

CHIROPRACTIC OFFERS YOU HEALTH WHY DELAY? DISEASE DOES NOT

No matter how you are suffering don't consider your case hopeless or that you have to spend a long time regaining health. Chiropractic is permanently curing hundreds every day. It is doing so because it is the sane, safe, sure, and scientific way to health. Investigate this wonderful modern way of healing disease. Take advantage of it, and suffer no more.
