### THE PITH OF IT

President Wilson, in tackling the high cost of living, said:

"Only by increasing production and by rigid economy and saving by the people can we hope for large decreases in the burdensome cost of living which now weighs us down."

Despite the fact that the Department of Justice is scurrying about investigating high prices and throwing profiteers in jail, the President's cure for high prices is the only one. He has with him in his opinion the best economists in America and Europe. It is most elementary economics that as long as the public persists in its spending "jag," buying unnecessary and fastening upon industry a demand for more than industry can produce, exorbitant prices will prevail.

There is only one way out. That is the President's way. The people have got to save. In order to save they must do without high priced luxuries and live simply. They must invest their savings that the means of more and greater production may be accumulated.

Economists know that the Treasury Department is doing more than the Department of Justice is to bring down prices. The lowly Thrift Stamp and War Savings Stamp is the weapon. Buy them and hold them. Put them first on the family budget. They bring 4 per cent interest compounded every three months. Get the habit of buying them every pay day. They will solve your high cost of living problem.

"Less dress and less pomp" is the slogan of Mrs. Bowen Schumacher, of Chicago. Less pomp is all right, but less dress will not do at all. That limit has been reached.

Even the fattest have a skeleton inside.
