FARM POINTERS THAT POINT

DAY-TO-DAY HINTS ON BIG AND LITTLE ITEMS OF PROGRAM BY O. A. C. SPECIALISTS

Farm Crops:—The supply of seed corn is running short, and now is a good time to figure on next year's supply. Prevent the shortage next year by raising better seed this year, more of it, and preventing damage from freezing.

Farm Management:—Get a farm record book free from your county agent or local bank—then start your accounts from March 1, or better still from the first of the year in order to aid in figuring income tax for next year.

Poultry:—Prepare for a good egg yield next year by hatching chicks in March and April from eggs laid by good layers.

Don't waste high price feed and high price labor in hatching and rearing chicks from hens that did not lay enough to pay for their feed and labor costs.

Horticulture:—Now is the time to plow under cover crops sowed last fall. Don't let the chops get too high and old as they will not rot easy. Cover crops if handled properly will decompose quickly and add fiber to the soil thereby increasing the water holding capacity. Don't delay any longer than necessary to plow under the cover crop.

We understand that Mr. and Mrs. Grant who have been in Tennessee on account of Mrs. Grant's health, will leave that state the 20th for Independence to again take up their residence here. Mrs. Grant is much improved.

An Oregon family of four had \$100 a month to get along one in 1913, but had grown into a family of ten with only \$45 a month income in 1920, how in the world would it live?

That Is the Case With

The State University, the Agricultural College, and the Oregon Normal. In 1913 they had 2250 students; now they have 5400. And \$1 in 1913 is only as good as 45 cents today, in purchasing power.

If You Yourself Were Responsible

could you carry on the work of the College, University and Normal on the same state support as in 1913?

You Could Not

Neither can the State University, the Agricultural College, and the Normal school do it. Will you not help these three institutions to continue their useful and productive work for Oregon by voting on May 21 for the Higher Educational relief measure?
