

International 8-16 Kerosene Tractor

THIS is a strong, light-weight tractor that you will like. Owners of the International 8-16 are pleased with the way it performs both at the drawbar and belt.

Fuel Economy

Of any two tractors of equal quality and usefulness, the one that operates on the cheapest fuel will be the most economical. The amount of saving to the owner can be definitely determined by the difference in fuel costs. The International operates successfully on kerosene and on even lower-priced fuels where they can be obtained. As compared with gasoline, the difference in the present price of these fuels means a saving of from 50 to 60 per cent to an International 8-16 owner.

Used to Advantage Any Day

International 8-16 is built to do belt work, as well as drawbar work, and is dependable for satisfactory service every day in the year.

Now is the time to place your order. The sooner you do so, the better chance to get your tractor in time to handle a large part of your farm work at a great saving in labor, time and money.

Brunswick Principles In Fine Tire Making

The reason you are interested in the name on your tire is that it identifies the maker. By knowing the maker you can judge his ideals of manufacture.

The only secret of a super-tire lies in the principles of the maker. His standards decide the quality. For there are no secrets in the tire industry.

What you get depends on what is behind the name on your tire. Brunswick, as you know, means a very old concern, jealous of its good name. Since 1845 the House of Brunswick has been famous the world over for the quality of its products.

The Brunswick Tire is all that you expect—and more. Your first one will be a revelation. You'll agree that you've never known a better. And you'll tell your friends. So spreads the news among motorists. The Brunswick is the most welcome tire that ever came to market.

Try one Brunswick Tire. Learn how good a tire can be built. And remember, it costs no more than like-type tires.
