COULD GET NO HELP SO FARMS AT 82

With his farm property, valued
at more than a quarter million
dollars, facing neglect, Louis
Shoger of DuPage county, Illi-
nois, 82 years old, is back into
work harness and is setting a
lively pace. He was forced to it
through the farm labor shortage.

GASOLINE TURNS THE EARTH

Motorboats Are Replacing Gondolas in
Venice, and Even the Windmills
in Holland Disappear.

Motorboats in Venice, replacing the
gondolas are not the only mechanical
profanation that is coming in to dis-
turb the future American travelers in Eu-
rope. A letter from Amsterdam tells
us that the Dutch windmills are being
replaced by mills operated by steam
and electric power. Every year some
of the old windmills are burned, and
they are not re-erected. Time may
come when a few windmills will be
treasured as relics in Holland; just as
similar structures are still preserved
on Aquidneck and Nantucket islands
for their curious interest, says the
Boston Transcript. Already windmills
of American construction, with steel
fans arranged in wheels, instead of
the picturesque old wooden arms, had
begun to make their appearance, even
in Holland. The metallic windmill
with the revolving wheel, is more pic-
turesque than the ordinary steam or
water power mill, but it is not so pic-
turesque as the old wooden affairs.
On our western prairies and plains the
tall windmills, with their big metal
wheels spinning high in the air, are
indeed a fine feature in the monoton-
ous landscape, but even they are in
danger of yielding to the process of
pumping water by means of gasoline
motors. The power of the wind, to
be sure, costs nothing, while that of
the gasoline motor may cost a good
deal, but there are times when no
wind blows, and the householder tires
of waiting for it to rise. Less and
less we are content to attend upon
forces of nature. The beautiful sails
are vanishing from the seas, to be re-
placed by belching smokestacks. On
land windmills give place to structures
operated by steam and electricity. The
sturdy oxen are no longer seen at
the farmer's plow; it is gasoline that
turns the earth now. Homeward the
unweary motor barks its way!

FAMOUS CHIMES RING AGAIN

Bells of St. Clements, in Old London,
Appeal to Children, as in
the Olden Days.

"Oranges and Lemons" rang out on
the old bells of St. Clements on the
last day of March on an evening as
fine as any during the finest winter
London has ever known. The bells
rang, but few heard them, prevented
by the roar of the Strand traffic. It
was the first time the old nursery
rhyme had been rung out from the
steeple for a very long while. Some
hundreds of school children, who had
been invited to attend the church, filed
out at the close in small processions,
piloted across the streams of traffic by
the London policemen. Every child
carried an orange or a lemon, a gift
which made up to them for the faint
tones in which the voices of the old
bells reached their ears. Down the
streets with the historic names running
from the Strand to the Thames, St.
Clements music was more audible, the
sound carrying over the noise and roar,
and into the offices where anybody,
with a turn of mind for antiquity, has
but to throw open his window to hear
the sound of a bell cast in the year of
the Spanish armada.

MAKE it easier to get around and
you make *healthier* and *hap-
pier* communities. No one any longer
questions the worth of the automobile
—or begrudges any *legitimate* ex-
pense connected with it.

But millions of car owners are rebelling at
the idea that running an automobile has got to
mean waste.

II

Every now and then you hear a neighbor
complain that “he doesn’t seem to have much
luck with tires.”

Send him to us.

The minute a man begins to *question the
service* his tires are giving him, he’s ready to
listen to reason.

Our business is built on the principle that
the only way to get better *tire service* is to get
better tires to start with.

That’s why we have taken the representa-
tion for U. S. Tires.

III

U. S. Tires have a reputation for quality.

Built up through years of creating better
tires. Such as the *straight side* automobile tire,
the *pneumatic* truck tire.

It is not by chance that U. S. Tires are made
by the *oldest* and *largest* rubber concern in
the world.

We are proud to represent U. S. Tires in
this community.
