—There has been a big slump in the price of cherries in the local market. The Independence Feed & Seed store, which is representing a Corvallis cannery is now offering seven

cents for Royal Anns and Bings and five cents for other varieties. At the start 12 cents was the price for Royal Anns and 10 cents for Bings, with other kinds a few cents less. The prices are fixed by the Corvallis concern and it is said that the slump is due to a larger supply than anticipated. Logans have likewise dropped off two cents, 10 cents now being the prevailing price. This of course does not affect those having contracts, but most of the growers here were not fortunate in that respect.
