

New and Desirable Things in Jewelry

This business is growing—every month is showing a nice increase in sales. This is due to the courteous consideration which every customer receives and the assurance of reliability which is back of every article sold. There is no camouflaging either in quality or price.

New Goods are being added constantly

In order to meet requirements of this notable increase in business it has been necessary to add many new articles to the stock. Very careful selection is made. In addition to a full line of standard made articles there are many pleasing novelties.

We would be pleased to have you inspect this line of jewelry. It would incur no obligation on your part. This business is being built on SERVICE—which implies courteous treatment, reliability of goods and fair prices. We believe that all are conspicuous in our place.
