It is better to be the free and disinterested agent of international justice and advancing civilization with the covenant of conscience, than be shackled by a written compact which surrenders our freedom of action and gives to a military alliance the right to proclaim America's duty to the world. No surrender of rights to a world council or its military alliance, no assumed mandatory, however appealing, ever shall summon the sons of this republic to war. Their supreme sacrifice shall only be asked for America and its call of honor. There is a sanctity in that right we will not delegate.

Disposed as we are, the way is very simple. Let the failure attending assumption, obstinacy, impracticability and delay be recognized and let us find the big, practical, unselfish way to do our part, neither covetous because of ambition nor hesitant through fear, but ready to serve ourselves, humanity and God. With a Senate advising as the Constitution contemplates, I would hopefully approach the nations of Europe and of the earth, proposing that understanding which makes us a willing participant in the consecration of nations to a new relationship to commit the moral forces of the world, America included, to peace and international justice, still leaving America free, independent and self-reliant, but offering friendship to all the world.

Humanity Is Restive.

It is folly to close our eyes to outstanding facts. Humanity is restive, much of the world is in revolution, the agents of discord and destruction have wrought their tragedy in pathetic Russia, have lighted their torches among other peoples, and hope to see America as a part of the great red conflagration. Ours is the temple of liberty under the law, and it is ours to call the sons of opportunity to its defense. America must not only save herself, but ours must be the appealing voice to sober the world.

It must be understood that toil alone makes for accomplishment and advancement, and righteous possession is the reward of toil, and its incentive. There is no progress except in the stimulus of competition.

The chief trouble today is that the world war wrought the destruction of healthy competition, left our storehouses empty and there is a minimum production when our need is maximum. Maximums, not minimums, is the call of America. It isn't a new story, because war never fails to leave depleted storehouses and always impairs the efficiency of production. War also establishes its higher standards for wages, and they abide. I wish the higher wage to abide, on one explicit condition—that the wage earner will give full return for the wages received.

Greater Production Necessary.

I want, somehow, to appeal to the sons and daughters of the republic, to every producer, to join hand and brain in production, more production, honest production, patriotic production, because patriotic production is no less a defense of our best civilization than that of armed force. Profiteering is a crime of commission, under-production is a crime of omission. We must work our most and best, else the destructive reaction will come.

The menacing tendency of the present day is not chargeable wholly to the unsettled and fevered conditions caused by the war. The manifest weakness in popular government lies in the temptation to appeal to grouped citizenship for political advantage.

It would be the blindness of folly to ignore the activities in our own country which are aimed to destroy our economic system, and to commit us to the colossal tragedy which has destroyed all freedom and made Russia impotent. This movement is not to be halted in throttled liberties. We must not abridge the freedom of speech, the freedom of press, or the freedom of assembly, because there is no promise in repression. These liberties are as sacred as the freedom of religious belief, as inviolable as the rights of life and the pursuit of happiness. We do hold to the right to crush sedition, to stifle a menacing contempt for law, to stamp out a peril to the safety of the republic or its people, when emergency calls, because security and the majesty of the law are the first essentials of liberty. He who threatens destruction of the government by force or flaunts his contempt for lawful authority, ceases to be a loyal citizen and forfeits his rights to the freedom of the republic.

No party is indifferent to the welfare of the wage earner. To us his good fortune is of deepest concern and we seek to make that good fortune permanent. We do not oppose but approve collective bargaining, because that is an outstanding right, but we are unalterably insistent that its exercise must not destroy the equally sacred right of the individual, in his necessary pursuit of livelihood. Any American has the right to quit his employment, so has every American the right to seek employment. The group must not endanger the individual, and we must discourage groups preying upon one another and none shall be allowed to forget that the government's obligations are alike to all the people.

We are so confident that much of the present day insufficiency and inefficiency of transportation are due to the withering hand of government operation that we emphasize anew our opposition to government ownership, we want to expedite the reparation and make sure the mistake is not repeated.

A state of inadequate transportation facilities, mainly chargeable to the failure of governmental experiment, is losing millions to agriculture, it is hindering industry, it is menacing the American people with a fuel shortage little less than a peril. It emphasizes the present day problem and suggests that spirit of encouragement and assistance which commits all America to relieve such an emergency.

Gross expansion of currency and credit have depreciated the dollar just as expansion and inflation have discredited the coins of the world. We inflated in haste, we must deflate in deliberation. We debased the dollar in reckless finance, we must restore in honesty.

Will Prevent Unreasonable Profits.

In all sincerity we promise the prevention of unreasonable profits, we challenge profiteering with all the moral force and the legal powers of government and people, but it is fair, aye, it is timely, to give reminder that law is not the sole corrective of our economic ills.

Let us call to all the people for thrift and economy, for denial and sacrifice if need be, for a nation-wide drive against extravagance and luxury, to a recommittal to simplicity of living, to that prudent and normal plan of life which is the health of the republic.

New conditions, which attend amazing growth and extraordinary industrial development, call for a new and forward looking program. The American farmer had a hundred and twenty millions to feed in the home market, and heard the cry of the world for food and answered it, though he faced an appalling task amid handicaps never encountered before.

Contemplating the defenselessness of the individual farmer to meet the organized buyers of his products and the distributors of the things the farmer buys, I hold that farmers should not only be permitted but encouraged to join in cooperative association to reap the just measure of reward merited by their arduous toil.

Aid to Farmer Pledged.

Our platform is an earnest pledge of renewed concern for this most essential and elemental industry and in both appreciation and interest we pledge effective expression in law and practice. We will hail that cooperation which again will make profitable and desirable the ownership and operation of comparatively small farms intensively cultivated, and which will facilitate the caring for the products of farm and orchard without the lamentable waste under present conditions.

America would look with anxiety on the discouragement of farming activity either through the government's neglect or its paralysis of socialistic practices. A Republican administration will be committed to renewed regard for agriculture and seek the participation of farmers in curing the ills justly complained of, and aim to place the American farm where it ought to be—highly ranked in American activities and fully sharing the highest good fortunes of American life.

Becomingly associated with this subject are the policies of irrigation and reclamation, so essential to agricultural expansion, and the continued development of the great and wonderful West. It is our purpose to continue and enlarge federal aid and not in sectional partiality, but for the good of all America.

Budget System Favored.

I believe the budget system will effect a necessary, helpful reformation, and reveal business methods to government business. I believe federal departments should be made more business like and send back to productive effort thousands of federal employes, who are either duplicating work or not essential at all.

I believe in the protective tariff policy and know we will be calling for its saving Americanism again.

I believe in a great merchant marine. I would have this republic the leading maritime nation of the world. I believe in a navy ample to protect it and able to assure us dependable defense. I believe in a small army, but the best in the world, with a mindfulness for preparedness which will avoid the unutterable cost of our previous neglect. I believe in our eminence in trade abroad, which the government should aid in expanding, both in revealing markets and speeding cargoes. I believe in establishing standards for immigration, which are concerned with the future citizenship of the republic, not with mere manpower in industry. I believe that every man who dons the garb of American citizenship and walks in the light of American opportunity, must become American in heart and soul.

I believe in holding fast to every forward step in unshackling child labor and elevating conditions of woman's employment. I believe the federal government should stamp out lynching and remove the stain from the face of America. I believe the federal government should give its effective aid in solving the problem of ample and becoming housing of its citizenship.

Government Should Protect Bonds.

I believe this government should make its liberty and victory bonds worth all that its patriotic citizens paid in purchasing them. I believe the tax burden imposed for war emergency must be revised to the needs of peace and in the interest of equity in distribution of the burden.

I believe the negro citizens of America should be guaranteed the enjoyment of all their rights, that they have earned the full measure of citizenship bestowed, that their sacrifices in blood on the battlefields of the republic have entitled them to all of freedom and opportunity, all of sympathy and aid that the American spirit of fairness and justice demands. I believe there is an easy and open path to righteous relationship with Mexico. It has seemed to me that our undeveloped and uncertain and infirm policy has made us a culpable party to the governmental misfortunes in that land. Our relations ought to be both friendly and sympathetic. We would like to acclaim a stable government there and offer a neighborly hand in pointing out the way to greater progress. I believe in law enforcement. If elected I mean to be a constitutional president and it is impossible to ignore the constitution, unthinkable to evade the law, when our every commital is to orderly government.

The four million defenders on land and sea were worthy of the best traditions of a people never warlike in peace and never pacifist in war. They commanded our pride, They have our gratitude which must have genuine expression. It is not only a duty, it is a privilege to see that the sacrifices made shall be requitted and that those still suffering from casualties and disabilities shall be abundantly aided and restored to the highest capabilities of citizenship and its enjoyment.

American Womanhood Praised.

The womanhood of America, always its glory, its inspiration and the potent uplifting force in its social and spiritual development, is about to be enfranchised. Insofar as congress can go the fact is already accomplished. My party edict, by my recorded vote, by personal conviction, I am committed to this measure of justice. It is my earnest hope, my sincere desire, that the one needed state vote be quickly recorded in the affirmation of the right of equal suffrage and that the vote of every citizen shall be cast and counted on the approaching election.

And to the great number of noble women who have opposed in conviction this tremendous change in the ancient relation of the sexes as applied to government I venture to plead that they will accept the full responsibility of enlarged citizenship and give to the best in the republic their suffrage and support. This is not only a fortunate people but a very common sense people with vision high but their feet on the earth, with belief in themselves and faith in God, whether enemies threaten from without or menace from within, there is some indefinable voice saying "Have confidence in the republic; America will go on."

MOST POPULAR GIVEN NAME

"John," or Its Derivative, Common in All Languages—Explaining Size of Jones Family.

John is the most common given, or Christian, name we have. Its history is curious. It came originally from the Hebrew Jehohannen, "God is gracious." The Greeks made it Johanan, and in the feminine it became Anna and Hannah. The name was unknown in Saxon England and was seldom used among the Normans. In the Doomsday book, the record of the inhabitants of England which William the Conqueror had compiled, only two Johns are listed, and one of them is a Dane. The German form is Hans, and sometimes Johan. From these we have the surnames Hanson and Johanson. The diminutive is found in Hanks, Hankin, Hankinson, Jankin, Jenkins, Jenson and Jennings. Shane is the Irish form of John and Jean the French. Considering the popularity of the name John and the fact that at this time it was spelled "J-o-n" and pronounced "Jone," the size of the Jones family will be explained. The name means "son of John." John Jones is found in almost every community.

Nothing Green in Death Valley.

The natural vegetation of Death valley is scant and stunted. There is not a green thing that grows there naturally. The thorny mesquit trees are of a yellowish-green tinge; so, too, are the grease bushes, while the sagebrush is either a yellowish gray or the color of ashes. A little round gourd called the desert apple grows in some of the canyons. It turns yellow when ripe and has a thin meat within that is exceedingly bitter. The cactus that grows beyond the valley in abundance is rare here. In short, the vegetation of Death valley is terribly scant, even in comparison with the Mojave desert.
