

In the Good Old Days in 1896:

When we pay 75 cents per dozen for eggs we remember the time when we could buy three laying hens for 76 cents, in the good old days of '96.

When we pay \$2.00 per bushel for wheat. It's not much, it makes us feel funny, when 52 cents equaled the same money in the good old 1896.

When your appendix went on a strike, the Dr. said: "Poor old Mike has inflammation of the bowels." They buried him in 1896.

In those good old days, women wore long skirts, which swept up disease germs and lots of dirt. We had big funerals in 1896.

In These Good Days in 1920

O. A. Kreamer saved the people of Independence hundreds of dollars on goods, nobody dropped dead.

In these good old days—1920—we are saving you from five to twenty per suit on Ed V. Price & Co.'s Made to Measure Clothing. Get dead next to yourself, come in, see how we do it, and be a live one.

O. A. KREAMER
Independence

SAYLES DODGE DEALER HERE

Given West Side of County
as Territory for Handling
This Popular Car

Announcement is made by Dodge Brothers, Detroit, of the appointment of B. P. Sayles, proprietor of the Sayles Motor Car company, as their dealer in Independence. He will conduct a regulation service station in connection with his salesroom on C street.

The remarkable popularity of Dodge Brothers motor vehicles has caused automobile men all over the country to clamor for sales privileges, but Dodge Brothers policy of quality in selling methods, as well as quality in the car, requires a painstaking investigation in every instance before a selection is made. In Mr. Sayles Dodge Brothers have a dealer on whom they believe they may rely for both progressiveness and fair business methods.

The prompt manner in which Dodge Brothers assumed one of the foremost positions in the automobile industry is regarded as a striking testimonial to the high regard in which their name was held by the public even before they marketed a motor car bearing their name. Prior to that time Dodge Brothers had built the vital parts for more than a half million cars, establishing a reputation for thoroughness and mechanical skill.

This reputation has been more than upheld. It is said of Dodge Brothers in explanation of their unusual success, that they spare no money or effort in building a car to suit their particular ideas of thoroughness in manufacture. What their ideas on this subject mean to the purchaser of their product may be imagined from the fact that they have a staff of more than 700 inspectors who do nothing but check up on workmanship in the various

processes of manufacture. In addition, there are several large departments devoted entirely to similar work, such as the physical and chemical laboratories where raw and finished materials are subjected to tests so thorough as to leave no doubt of the quality.

It is significant that the first Dodge Brothers motor car ever built was made up exactly as a car is made in the regular line of production. Ordinarily the "experimental job", as the first car is known, is built of castings because of the great time and expense involved in preparing dies for forgings. Dodge Brothers, however, decided that their experimental car should be like the car they expected to build, in every detail, so that neither they nor the public might be "fooled." So they spent almost a year in making these dies and preparing otherwise for a completely manufactured car. As a result, when the car was built, they knew what they had and what they and the public might expect of their product.

Public approval of their principles of thoroughness is seen in the rapid expansion of Dodge Brothers works made necessary by public demand. In December, 1914, it was a plant of less than 20 acres. Today Dodge Brothers works covers over 100 acres of floor space, and there is enough construction work under way to bring the total well above 120 acres.

PETER COOK BUYS STORE AT RICKREALL

Peter Cook has purchased the general merchandise stock of Cadle Bros. at Rickreall and will continue the business. Mr. Cook is well known in Polk county, having resided at Rickreall for many years. After Cadle Bros. announced that they were going to retire from business Mr. Cook was persuaded by the community to purchase the business and he has finally done so.

The Enterprise is still \$1.50 per year.

FOR REAL TIRE ECONOMY USE

Michelin Tires & Tubes

You get more value for your money than from any other tire or tube on the market today. This may seem like an extravagant statement, but let us convince you of the truth of it.

Michelin Tubes are Ring-shaped—all others are straight. When a tube other than Michelin is deflated, its inner and outer circumferences are of practically equal length. The inside of the casing however, is much shorter around the beads than around the tread. Consequently when the straight tube is put into the casing, either the inner circumference of the tube is too long or its outer circumference is too short. Such tubes are easily pinched in fitting; wear thin in spots, or break where creased or folded, and under the pressure of inflation and use.

Considering that they are fully guaranteed, Michelin Tires and Tubes are very reasonable in price. As an illustration:

30x3 1/2 casing \$23.00

The M. E. Sunday school elected the following officers for the ensuing year: Perry Wells, Supt.; M. L. McGowan, assistant superintendent; Clifford Wells, secretary; Warren McGowan, treasurer; Ruth Prather, organist, elected for three years; Etta Wells, librarian, elected for three years. Much interest is shown in the school and attendance is increasing each Sunday. With the new officers just installed it has a promising year before it.

Mr. W. Morgan, who has succeeded in buying the Turnbull Bros. store here, will take possession next Monday, October 4. He has also bought the M. V. Prather old store building and expects to use that in his business and has purchased the John Donaldson residence property. The Turnbull family leave here with the regret of the people, but may locate in a near-by town. During their short stay here they made many warm friends whose best wishes go with them.

Mr. and Mrs. Allison and two daughters of Cottage Grove, and Mrs. J. E. Kirkland of Albany, Sundayed with Mr. and Mrs. M. N. Prather.

Mr. and Mrs. H. E. Prather and Clare Prather were shopping in Albany Monday.

Word from Mrs. Frances Kester at the Good Samaritan hospital in Portland is to the effect that although the operation was a serious one she had rallied splendidly and hopes are now held out for a complete recovery. She was formerly Miss Frances Donaldson of this place.

G. A. Wells and Arthur Hall were in and near Toledo last week and report any amount of grain in the fields not yet threshed.

Lives of Great Men All Remind Us

U. S. GRANT was a great general and succeeded to the highest office in the land, yet his last years—sick with a negligent disease—were spent in a plucky and heroic endeavor to pay his debts. He succeeded, as he did in everything he attempted.

It requires strength of purpose and of will to lead a life of thrift—but remember it requires more strength to pay the price of spendthriftness.

A savings account with this bank—one good way to practice thrift.
