

Crater Lake, near Medford, in Southern Oregon— one of the world's most beautiful lakes.

**The Sapphire Blue of Crater Lake**

The Gasoline of Quality

WORDS cannot adequately describe the beauties of Crater Lake. Its sapphire-blue coloring, its picturesque island and its gorgeous setting combine to make it one of nature's wonder spots.

Crater Lake is in the southern part of Oregon and is accessible by automobile from the Pacific Highway.

And motorists may plan a trip to Crater Lake with assurance because Red Crown Gasoline may be obtained all along the route—from north or south.

Make your trip with "Red Crown"—the gasoline of quality—the gasoline with a continuous chain of boiling points.

Look for the Red Crown sign on service stations and garages.

**HOMESEEEKERS COMING IN JULY**

Portland—July 19th will mark the date when the first trainload of homeseekers from the middle west will start from Omaha to Oregon, according to announcement made by the executive committee of the Oregon state chamber of commerce following receipt of a long telegram from William Hanley from Oregon. This date was selected by the heads of the agricultural department of the Union Pacific system at Omaha and confirmed here by the executive committee of the state chamber.

Hanley, as a director of the state chamber, is in Omaha with J. R. Heuring, colonization expert who is working with Union Pacific officials in grouping together homeseekers to be brought to Oregon in a body. The agricultural department of the Union Pacific will swing its whole forces into the drive to send settlers to Oregon, it was announced.

Following notification as to the results of the conference in Omaha, Secretary Quale of the state chamber sent out letters to each commercial organization of the state, urging them to prepare for the coming of the settlers, first, by obtaining listings of lands in their districts at prices based upon careful appraisal, and second, to form, if possible, a corporation or financing commission composed of the leading business men of the community, for the purpose of buying up these available lands, or obtaining options upon them, under terms that will permit the settler to make good.

"In regard to preparing for the reception of the settlers when they arrive in Oregon," said Secretary Quale, "Eugene business men have already perfected a tentative organization, the purpose of which is to buy or obtain options on lands available for the settler, and re-sell these lands on easy terms and long time payments. The Crook county chamber of commerce was recently formed and is already at work preparing for the homeseekers. The Baker county chamber of commerce has a committee working on plans for taking care of settlers when they arrive in Baker.

"These communities are to be commended for the promptness with which they are meeting the situation, and I am certain that all other communities will do their share. The state chamber can only bring the settlers to Oregon. It is up to the individual districts to take care of them when they arrive and see that they are located where they can make good."

Many applications for admission to the special homeseekers party are already on file from middle western farmers according to Secretary Quale. A recent letter from Gary, Indiana, stated that three representative citizens of a large colony of prospective

**McARTHUR & STAUFF BUY MAINE SIRE**

of Oregon, is the name of Jersey bull sold recently to the Stock Farm, Bangor, by McArthur & Stauff, Rick-son. This young animal is a superb individual, but his pedigree is equally impressive. He is a direct descendant of the principal herd sire at the big establishment. This great sire is a line-bred Sophie Tormentor of the A.J.C.C. silver medal winner of the 19th's Tormentor and the champion junior 3-year-old of the Bertha. His grandsires are Torono's son and the champion sire Pogis 99th of Hood Farm—sire of 85 Register daughters and 15 producing grandams are, Sophie 19th of Hood Farm, "world's senior 3-year-old. His grandams average 928 lbs. He is a splendid individual and show great type and uni-

onal Dairy show in 1910. The dam of Fairy Boy's Jennie is Kingleside Rosette, R. of M. record, 663 lbs. butterfat at 11 years, 9 months. She was sired by Flying Fox's Victor and out of Temarorio—a linebred St. Lambert.

Two years ago McArthur & Stauff purchased the young bull Pogis 99th of Hood Farm 39th and bred him to their choice females of Gertie's Lad, St. Maves and Golden Glow's Chief breeding. The results of this cross were heavy winners at the last Pacific International. They include a fine lot of heifers that are now ready for service and their owners have been looking around for a young bull of correct conformation and a proper amount of common blood to insure successful line breeding. After a careful study of many available bulls, the Ayredale youngster was selected. His three nearest dams average over 800 lbs. butter fat.—Pacific Homestead.

**Notice That Certain Street Improvement Bonds Will Be Paid.**

Notice is hereby given that there are sufficient funds in the Street Improvement Fund of the City of Independence, Oregon, to take up for payment and cancellation Bonds Nos. 25, 26, 27, 28, bearing date July 1, 1914.

That on July 1, 1921, said bond will be taken up and cancelled and paid in full, principal and interest to said date and thereafter will cease to bear interest.

Dated May 24, 1921.  
C. W. IRVINE,  
City Treasurer.

settlers had been selected to join the party.

**SPRING INSECTS ATTACK MANY VEGETABLE CROPS**

Spring insects are beginning to make their appearance on several crops at this time, among them the 12-spotted bean beetle, the tomato

flee beetle, the beet leaf beetle, aphids on various plants, and cut worms, which attack a wide variety of young vegetables. Vegetable growers may provide themselves with the necessary means of information and material by which they can prevent insects from damaging a great deal of the garden. Every vegetable

gardner should have a copy of O. A. C. bulletin No. 325. The college is in a position to furnish at cost some "all-in-one" dusting powder which has proved to be very efficient in preventing serious injury by insects of different kinds. This is obtainable through the department of vegetable gardening.
