UNION COUNTY SCHOOLS BE COLLECTING VEGETABLES

Portland—A constructive plan designed to meet one phase of the unemployment problem by combating the high cost of living this coming winter, has been effected and put into operation by the Union County Ad Club of La Grande, according to A. Nelson, secretary-manager of the La Grande organization who was in Portland conferring with State Chamber of Commerce officials.

The project as carried out in Union county is as follows, according to Nelson: The schools of the county are to be given to that school children the most vegetables and fruit products. Vegetables and fruits which are not of commercial value, but which ordinarily would go to waste, are donated by the farmers of the surrounding country. In the winter when the condition of the unemployed is expected to be acute, this food is to be distributed at a very minimal cost.

Union county schools have taken to the idea enthusiastically, according to Nelson, and the Ad club has provided automobiles on specified days for the transportation of the children to the various farms where the food products can be obtained.

"I consider this a highly commendable project," said Secretary Quayle of the State chamber. "Not only will food be supplied when it is most needed, but school children will be provided wholesome and character-building work during their idle time." A letter outlining the La Grande project has been sent to every commercial club of the state urging immediate action along these lines, according to Quayle.

The earliest peas marketed in several Willamette Valley towns are grown from fall sown seed. Seeding should be well up before the continuous cold rains occur. Alaska is a good variety for fall sowing, according to the O. A. C. Experiment station. The ground should be fertilized with manure and drained naturally to shed excessive moisture.—Vegetable gardening.

Beekeepers of the Willamette valley have sustained heavy losses this season due to the ravages of European foul brood. Some complaints have come to the O. A. C. Experiment station concerning the wax moth, but these insects merely enter the hives and clean up the havoc wrought by the brood.—Entomology.

New business in the lumber industry of the Pacific northwest was 25 per cent above production and 20 per cent above shipments for the week ending October 8, according to the weekly lumber review of the West Coast Lumbermen's association. This exceptional demand was characterized by the report as the second active selling week in nearly two years and was declared to be largely due to dealers buying to fill short retail stocks and wholesalers speculating on poorly balanced mill stocks.

In order to get a supreme court decision allaying fears which may be entertained by bond houses as to the legality of bonds offered under the recent state aid bill, or bonus act, Thomas Henry Boyd, commander of Portland post of the American Legion, filed a friendly injunction suit in the Multnomah county circuit court against state officials and the veterans' state aid commission. The action purports to be brought by Boyd as a taxpayer "in his own behalf and in behalf of all persons similarly situated," and names as defendants the governor, secretary of state, state treasurer, state tax commissioner and Adjutant-General White, Arthur C. Spencer and Lyman G. Rice of the commission. The attack is made on a purely technical point of legislative procedure in the adoption of the measure providing bonus and loan for ex-service men. The suit will be put through the local circuit court and the state supreme court so as not to delay the sale of bonds unnecessarily.
