

Specials for Saturday and Monday

Alive to the necessity of making two blades of grass grow where one used to function, Independence merchants have inaugurated a series of bargain events for Saturday and Monday of each week. Special offerings in practically all lines are being made—offerings of merchandise of the kind that is being used every day.

Independence merchants are crowding their shoulders to the wheel of progress with a vim which is going to bring results. They want the business of this locality and are going to get it if price inducements and courteous service will bring it. There is not one that is not a depend-

able concern. In these offerings profits are sheared, and in some cases prices are below actual wholesale costs.

There is another thought in connection with this campaign of loyalty to your home town which is worthy of consideration. Whether you are a business man, farmer, laborer, you are interested in its welfare. If Independence as a whole prospers, you must share in this prosperity. Likewise, on the other hand, if it goes the other way, you share the loss. This is inevitable and is in evidence in various forms. Depreciation in town property, in farm property, the loss of a job and numerous other ways.
