TO THE VOTERS OF POLK COUNTY, OREGON

After announcing myself as a candidate for the Republican nomination for County Commissioner, I feel that the people are entitled to know for what I stand and what they can expect should I receive the nomination and am elected.

I earnestly believe in and will support the following:

Will work for a good economic business administration.

Will endeavor to reduce the tax levy without sacrificing necessary essentials and, as a heavy tax payer, I am keenly interested in this grave necessity and I believe that the enactment of the proposed State income tax measure will be a long step in this direction.

Will endeavor to treat all people in all parts of the county justly and impartially.

Will stand for County employees' wages being placed on the same basis as other wages throughout the country and keep the number of employees to the minimum.

Will stand for each road district getting the seventy percent tax levy, as by law provided, and the balance

of the road money, or the other thirty percent, will be equitably distributed.

In distributing market road funds, I will always keep in mind the intention of the law and will seek to locate market roads where most needed to the benefit of the producers.

Will have certain days and regular hours at the County Court House to hear the suggestions and troubles of the people.

Will be governed by the wishes of the people at the tax budget meetings so far as is practicable to keep within the bounds of the law.

Will stand for better roads and protection of what we already have through maintenance.

Will work at all times for harmony with the members of the Court but will use my own judgment in deciding matters before me.

If it is the will of the voters of this County that I serve them as County Commissioner, I shall use all my influence to enforce the above platform.
