PARENT-TEACHER ASS'N ABOUT TO START WORK

The Parent-Teacher association will hold its first meeting for the new school year at the training school, Tuesday, October 3rd, at 3:30 p. m. After a short program and business meeting all will adjourn to the school kitchen where lunch will be served and those present be given an opportunity to greet the critic teachers. At this time the membership books will be open for all who will to become members of the association. This organization exists for the sole purpose of assisting the school board and the teachers in making our school one of the best in the state. Through the association the parents and teachers become better acquainted, matters of general interest to the school are discussed, and many a dollar is turned to the good of the pupils through the efforts of the members.

While the school, of course, has the moral support of every citizen, it is hoped that this year the membership list of the P. T. A. will be longer than ever before. In union there is strength, to have strength we must have organization, and as an organization, we are able to do much for the school that, as individuals, we could not do.

The fact that we have no children attending school need deter none from becoming members of the association and a hearty invitation is extended to each and every person who has the interest of our school children at heart, to meet with us next Tuesday, extend a welcome to our critic teachers and become a member of the association.

CEMENT SHORT; CONTRACT WAITS

Kullander Bros. Submit Bid on Third Street Improvement

A scarcity of cement is temporarily holding up the paving of Third street from Monmouth to C, a distance of three blocks. The city council convened in special session Monday night to consider bids for this work. Only one had been submitted, that of Kullander Bros., and that contingent upon being able to buy cement at not to exceed \$4 per barrel.

Their bid was \$1.89 per square yard for a six inch concrete surface, 30 feet wide with a 1-2-4 mixture, and 41 cents per running foot for curbing, with the filling and grading cost extra.

The council was apparently satisfied that the bid was as low as could be expected, but owing to the cement situation, action was deferred until the regular meeting of the city council next Wednesday night.

Mr. Nims of Portland, representing the Cement Association of America, was in attendance at the meeting and stated that he expected that inside of a few days it would be possible to secure all the cement desired.

Enrollment is 104 With Many Pupils From Outside Points

Divided into classes the enrollment is: Senior, 14; junior, 23; sophomore, 21; and freshmen, 46. There are 23 pupils from outside the district—the largest number in years—and the increase from this source is largely due to the addition of agriculture to the course of study. Sixteen are registered for this work and this is deemed capacity number.

Supt. Byers and the other members of the faculty are finding that they have more than their hands full, and the board of education, at a meeting Wednesday night, authorized the addition of Mrs. Grow as a part time teacher. She is the wife of H. W. Grow in charge of the agricultural work, a college graduate and an experienced instructor.

There was no session of high school yesterday in order that the pupils might have the privilege of attending the state fair.
