**EDITORS STUDENT GUESTS AT COLLEGE HOMECOMING**

Oregon editors have been invited to join the Beaver rooters for a real "make-up" party at the annual homecoming day football game between the agricultural college and the university at Corvallis November 18.

"Yell all you want to for who or whatever you want to, see the big classic, eat all you can, and make a

day of it with the other high-brows," is the only condition of acceptance. The college will attend to the rest.

The gang will lunch at 12 as guests of Sigma Delta Chi, the fraternity of writers, has-beens and would-bes, play high jinks—maybe steal another march for the smokes—ramble around a few minutes, review the Varsity "O" procession, and see the game as guests of the student assembly at the "theater" party in the new big stadium erected by the students.

The students have already sent complimentary season tickets to the editors for all athletic events on the campus, and these tickets are of course good for homecoming day. "Party" reservations will be made for all editors of country, town, and farm periodicals who send acceptances.

**IMPORT BEADS BY BILLIONS**

Demand for These Ornaments by the Women of the United States Seems Insatiable.

Beads and beads must belong together in the mind of the modern woman. At any rate, ten strings of beads are worn today when one was worn before the war and before the vote. Beads by the billions are being imported. This year's record promises to run far ahead of last year's, and last year's record was worth a glance.

To make any comment upon the advanced and emancipated woman's interest in the ornament that is usually set down as a South sea savage's notion of an all-but-complete costume is quite unnecessary. The figures speak for themselves.

From central Europe, from France, from the shores of the entire Mediterranean, from all Judea, from the three great countries of the Far East, the making of beads for the United States is a big business, declares a New York Sun writer. Not satisfied with the quantity that can be turned out with everybody working at the job of decorating the dresses and the hats and the shoes of millions of American women, the demand for something different has made the best dealers set the very South sea savage to scraping up the seashells from the shores of lonely isles that are all but lost on any average map.

To the national bill for fire materials could be added the cost of all imported cigarettes and then the total would be \$35,000,000 short of meeting the total outlay for feminine ornaments. In spite of the increase in the amount of coffee imported, the cup that cheers America at breakfast time costs far less than the beads that women wear. About \$95,000,000 less. The comedy continues throughout the whole list of life's lesser luxuries.

**WOMEN IN VARIOUS TRADES**

Fair Sex Has Traveled Far From What Was Considered Proper in the Victorian Era.

There are today in New York state 789 women in the building trades including women carpenters, electricians, house painters, glaziers, paper hangers, plasterers, plumbers, and even stone cutters. There are also women working as common laborers for the railroads.

We have had factory workers, to be sure, for long years, but in the past they have been chiefly employed as semi-skilled operators in clothing, textile and similar industries. Today, New York state boasts 2,619 in lumber and furniture work; 6,392 doing semi-skilled tasks in steel and iron and 3,217 working among the other metals; while 1,107 work in clay, stone or glass. The combined list of mill workers and skilled operators runs considerably more than 300,000 for the state.

Such tasks are not so anti-Victorian as quarrying, mining, stevedoring, of course, in which women are also engaged, but they are still a far cry from the kitchen stove, the parlor dust cloth and the nursery—Florence Gay Woolston in the New Republic.

**Chewing Gum Gave Him Away.**

A job of chewing gum has disrupted a family. In a recent divorce case the wife, who was suing, testified that she was sure that her husband was unfaithful, but did not know for certain to which one of several charmers he was paying attention.

One morning she found a job of gum that he had been chewing the night before when he returned home late. In the lump of gum was the fatal red hair. She caused a watch to be placed on the woman who had locks to match the hair she found and discovered that her husband was a frequent visitor at the red-head's apartment and got a divorce in record time. Talk about your detective stories, what a plot!—Portland Oregonian.

**Locomotive From Scrap Iron.**

Working for eleven years, with a file as his only tool, a man in Buenos Ayres has made a miniature locomotive of scrap iron. The locomotive can be operated under its own power by the use of compressed air. The iron was not heated in the making, but was worked cold. A small coal tender and passenger coach were made at the same time and the whole thing is a little more than six feet in length and weighs 170 pounds. More than 1,300 screws and 2,000 rivets were used in the work. The train is complete to the last tiny detail and is built on the model of the equipment used on the British railroads of that country.

**FARM POINTERS THAT POINT**

Mushroom samples may now be sent to the department of botany and plant pathology to determine whether or not they are poison. Wrap the specimens in paper and mail them in cardboard boxes to prevent crushing.

Grain and hay gain in weight during the winter months. This is because of the absorption of moisture from the air. When in large bins, there is less air and less gain in weight. Loose or open piles allow

excess air spaces between the stalks or bales or in the stacks in the field, so that considerable moisture is absorbed.

Good sunflower seed for silage plantings is wanted every spring. As much on the market is imported. It is difficult for farmers to get acclimated seed. Save a few sunflower heads from well matured leafy plants. After drying them in a warm, dry room she'll off the seed and store in a well ventilated rat and mouse proof can.

**NOTICE OF SCHOOL MEETING**

Notice is hereby given to the legal voters of School District No. 29 of Polk County, State of Oregon, that a **SCHOOL MEETING** of said district will be held at Public School Building, on the 8th day of November, 1922, at 7:30 o'clock in the afternoon for the purpose of discussing the budget hereinafter set out with the levying board, and to vote on the proposition of levying a special district tax.

The total amount of money needed by the said school district during the fiscal year beginning on June 16, 1922, and ending June 30, 1923, is estimated in the following budget and includes the amounts to be received from the county school fund, state school fund, elementary school fund, special district tax, and all other moneys of the district:

BUDGET—ESTIMATED EXPENDITURES	
PERSONAL SERVICE	
Principal	Salary per Year \$2200.00
High School Teachers	6435.00
Grade Teachers	7200.00
Janitors	1350.00
Clerk	150.00
Other services	400.00
Total	\$17735.00
MATERIAL AND SUPPLIES	
Furniture (desks, stoves, curtains, etc.)	\$400.00
Supplies (chalk, erasers, etc.)	200.00
Library books	100.00
Flags	25.00
Janitor's supplies	100.00
Fuel	800.00
Light, Power and Heat	250.00
Water	150.00
Postage and stationery	25.00
Total	\$2050.00
Construction	\$300.00
Maintenance and repairs	400.00
Assessments (Highways, Roads, Streets, Bridges)	125.00
Indebtedness—Bonded, and interest thereon	4505.00
Warrant, and interest thereon	200.00
Insurance	250.00
Miscellaneous	500.00
Total estimated amount of money for all purposes during the year	\$28,065.00

ESTIMATED RECEIPTS	
From county school fund during the coming school year	\$3500.00
(Use amount of county school fund received last year as basis in making this estimate.)	
From State school fund during the coming school year and tuition	2250.00
(Use amount of state school fund received last year as basis in making this estimate.)	
From elementary school fund during the coming school year	2700.00
Estimate of probable unexpended balance at end of current year	2700.00
Total estimated receipts, not including proposed tax	\$11,150.00
Balance, amount to be raised by district tax	\$14,915.00

Dated this 27th day of September, 1922.  
 Attest: C. G. IRVINE, District Clerk  
 M. H. PENGRA, Chairman Board of Directors

**ORIGINAL ESTIMATE AND ACCOUNTING SHEET SCHOOL DISTRICT NO. 29**

This original estimate is made in compliance with section 231-A of the school laws of 1921 and shows in parallel columns the unit costs of the several services, material and supplies for the three fiscal years next preceding the current year, the detail expenditures for the last one of said three preceding fiscal years and the budget allowances and expenditures for six months of the current year. ("Six months of the current year" means six months of the last school year.)

EXPENDITURES				
ITEM	Estimated expenditures for the ensuing school year	Expenditures for three next preceding the last school year	for three	fiscal years
		Last Year	2nd Year	1st Year
PERSONAL SERVICE:				
Principal .....	\$2200.00			
High School Teachers .....	5850.00			
Grade School Teachers .....	7200.00			
Janitors .....	1350.00			
Clerk .....	150.00			
Other services .....	400.00			
Total .....	\$18950.00	\$12875.00	\$10700.00	\$7855.00
MATERIAL AND SUPPLIES:

Warrant, and interest thereon ..	200.00			
Total indebtedness .....	\$4705.00	\$4860.00	\$2200.00	\$4342.00
Insurance .....	250.00	\$300.00	\$265.00	\$246.00
Miscellaneous .....	500.00	\$500.00	\$500.00	\$400.00
GRAND TOTAL .....	\$25,005.00	\$21,375.00	\$16,526.00	\$14,892.00

I, C. G. Irvine, do hereby certify that the above estimate of expenditures for the year 1922-1923 was prepared by me and that the expenditures and budget allowance for six months of the current year and the expenditures for the three fiscal years next preceding the current year as shown above have been compiled from the records in my charge and are true and correct copies thereof.  
 C. G. IRVINE, District Clerk

**Taxes and the Governor**

When a candidate for the high office of governor bases his candidacy on certain claims and promises as to what he will do if elected, the public is entitled to have his claims analyzed and examined.

In this campaign, Walter Pierce has gone about the country melodramatically tearing tax bills in two by way of illustrating what he will do to taxes if elected.

The voter, then, should analyze the tax matter to the extent of becoming informed as to just what part the governor plays in imposing or reducing taxes.

In the first place, the voter should know that the total levy in Oregon for 1922 is \$40,473,906. This is a reduction of over \$1,500,000 from last year, so that it will be seen the high cost of government following the war is already receding.

Of this 1922 levy of 40 million, over 31 million was for county, city and school district purposes, over which the governor could have no possible control whatever.

Of the remaining 9 million for state purposes, only 3 1/2 million are taxes over which the legislature has any discretion, and of this amount, only 2 1/2 million are for the actual expenses of state government and might, therefore, in even the remotest degree, be charged to the methods employed by the governor in administering the state's affairs.

In passing, it should be noted that this state levy is an increase of 41 per cent, since 1916, and not several hundred per cent, as stated on various occasions by the democratic candidate. It should also be noted that less than half of this 41 per cent occurred during Mr. Olcott's administration. This ability to keep down the cost of the state government to so small an increase, when living expenses in the ordinary home in the same period increased over 100 per cent, is a most creditable showing.

**MR. PIERCE'S TAX RECORD**

It is proper at this point to examine Mr. Pierce's own record on taxes and see if past actions as a legislator square with his words.

Of the \$9,376,289 of state taxes for 1922, which include the millage taxes, MR. PIERCE SPECIFICALLY HAS APPROVED OF \$8,564,039, or 92 per cent. He had no chance at most of the other 8 per cent.

Of the 1922 state taxes, Pierce introduced bills accounting for \$1,429,126, or 15 per cent.

In addition to this, he voted for tax bills introduced by others to the amount of \$6,114,-

109, and he has given his public approval on numberless occasions of measures passed since he was returned from the legislature causing taxes amounting to \$1,020,804, making a total of state taxes approved by Pierce of \$8,564,039, or 92 per cent of the total 1922. There is no telling how much of the remainder he might have approved if he had had a chance, and it may be significant that the state taxes have decreased over 11 per cent since Mr. Pierce was retired from the State Senate.

Mr. Pierce has always been a consistent tax booster. He voted against only three per cent of all the appropriations of the 1919 session of the legislature and voted for all the appropriations of the 1920 special session.

In 1917 Mr. Pierce introduced a bill to exempt money, notes, mortgages and accounts from taxation. Yet he poses as being anxious to take the burden off real estate!

He voted for submission of \$400,000 bond issue to build a new penitentiary.

Mr. Olcott, at no TAX expense and with prison labor, has fixed up the old penitentiary in excellent shape for another 25 years.

Mr. Pierce voted against accepting road machinery from the government. That machinery now amounts in value to \$1,800,000.

**GOVERNOR OLCOTT'S RECORD**

The above are but a few of the extravagances of Pierce. Mr. Olcott, on the other hand, has conducted the business of the state in an economical, sane and business-like manner. He has saved the state thousands of dollars because of his level-headedness and his intimate knowledge of state affairs. He built a new Boys' Industrial School Building by diversion of a millage fund, and therefore, without a single cent additional tax. He has insisted upon development of the various state farms connected with the state institutions until the present year shows the unprecedented income from this source of \$491,511. He is no talker, no politician, no idle promiser and is not seeking re-election under false pretenses nor catering to prejudice, but is going to the people on his own splendid record, confident that if he can but get that record and Mr. Pierce's record before the voters of Oregon that he will be vindicated on election day, Tuesday, Nov. 7th.

**Vote for Olcott for GOVERNOR**

REPUBLICAN STATE CENTRAL COMMITTEE  
 WALTER L. TOOZE, Chairman. C. E. INGALLS, Secretary.

**Why Over a Million Americans Now Bathe Internally**

Accumulated waste in the lower intestine causes the majority of human ills. All physicians will tell you this, and that it also robs us of half our "pep" and ambition, causing headaches, biliousness, etc., even before we are ill.

Drugs never have and never can keep the intestine clean. By the use of pure warm water, administered by the "J. B. L. Cascade", it is thoroughly cleansed and the poisons are kept out of the system.

You will know what it really means to feel 100 per cent. in the morning after an Internal Bath the night before—but not until then.

So say many right here in this city, who have bathed internally for years and are now correspondingly healthy, happy, strong and ambitious.

Ask us today, while you think of it, for an interesting book on "Why Man of Today is Only 50% Efficient."

It is free to you.

Williams Drug Store, Independence, Oregon
