NEWS OF THE WEEK.

The Treasury Deficit Will not Exceed Forty-three Millions.

SWELTERING HEAT IN THE EAST.

Attorney-General Olney will Probably Succeed Gresham—Oil Regions on Fire—Columbia Asks Damages.

[From the Oregonian, Sun and Statesman.]

Chicago's Tribute to Gresham.

CHICAGO, May 30.—The remains of Walter Q. Gresham were laid in the vault in Oakwood cemetery this afternoon, there to remain until the members of his family have decided upon a place of final interment, either in Oakwood or in some other cemetery in Chicago. Never in the city's history, save the day when the dead body of Abraham Lincoln was carried through its streets, has Chicago testified so fully her grief at the death of any one man. The streets through which the funeral cortege passed, and the cemetery, were packed with a crowd so dense that they could be packed no closer. For hours before the time set for the arrival of the funeral train thousands of people stood waiting in the sun, which beat down on them with tropical fervor. As the hearse passed slowly along every head was uncovered in respect to the illustrious dead, and during the short services before the body was finally placed in the vault the cemetery for a distance of several hundred feet around the vault was filled with a crowd, which stood without a sound until the services were finished.

Fighting in Formosa.

HONG KONG, May 30.—Hostilities have commenced in Formosa. Private advices have been received to the effect that the Japanese are bombarding Kee Tung, a town in the extreme north of Formosa. It is believed here that the bombardment is being carried on by the fleet of the Japanese now supposed to be in the vicinity of Tamasui.

Scarlet Fever Epidemic in Seattle.

SEATTLE, Wash., May 30.—In accordance with an order from the health board, the board of education of Seattle has ordered all the schools closed at 3 o'clock until further orders. This step was made necessary by the prevalence of scarlet fever, there being now 53 cases quarantined. The South and Ranier schools were closed two weeks ago, and since then not a single new case occurred in these districts. The board of health is convinced that by these precautions a further spread of the disease can be prevented.

Marcus Whitman's Grave Decorated.

WALLA WALLA, May 30.—Memorial day was observed here with appropriate exercises. In the morning early Professor W. D. Lyman, with the faculty and students of Whitman college, visited the grave of Marcus Whitman and covered his resting place with flowers. At the appointed hour the procession moved, headed by the Fourth United States Cavalry Regiment band. The line of march was carried out to the Baker school building. The orator of the day was H. S. Blandford.

Wanted in Yamhill County.

ASHLAND, Or., May 30.—Sheriff Henderson, of Yamhill county, came here today to meet a Klamath county officer, who had captured, in Klamath county, one Tom Hubbard, wanted at McMinnville for horse stealing last February. Hubbard was taken northward on the train tonight.

Colombia Will Present a Claim for Damages.

WASHINGTON, May 31.—General Regnifo, the representative here of the republic of Colombia, expects to be authorized by his government to present a claim against the United States for damages sustained by Colombia by reason of President Harrison's proclamation. Secretary Blaine effected reciprocity treaties with most of the South and Central America republics, but Colombia and a few others refused to make such treaties. Colombia has suffered severely by reason of discriminating tariff rates against her coffee, hides, sugar and molasses.

Huntington Predicts Good Times.

LONDON, May 31.—The Financial News today had an interview with C. P. Huntington in which he said he felt confident that good times in America were coming right away. "For five years," said Mr. Huntington, "my only hope has been that we should not have a boom in railroads. I do not know which I dread the most, a boom or a panic. Central Pacific holders must wait a little for good dividends. Though I do not agree with every thing Sir Charles Wilson's report contains, I think he meant to be fair and believe he will find he has got an octopus in the Grand Trunk, but he will manage it, for he is able, and will get good men to work with him."

Costa Rica and Nicaragua.

NEW YORK, May 31.—A special from the World from San Jose, Costa Rica, says it is the general opinion that it will be difficult to avoid war with Nicaragua. Public opinion seems to favor war. Military preparations continue.

The Silver Cause in Louisiana.

NEW ORLEANS, June 1.—A call has been issued for a silver convention, to meet in this city June 10, and to elect delegates to the Memphis bimetalists' convention to be held June 12 and 13. The call is addressed to all those who favor the free and unlimited coinage of silver, regardless of politics. Nearly all the signers are democrats.

Pullman Suit Decided.

CHICAGO, June 1.—Judge Baker handed down a decision today favorable to the Pullman Palace Car Company and to all of its interests, but one. The opinion is a long and exhaustive one, fully considering each of the usurpations charged and discussing the law applicable to them. The ruling of the court does not affect the company to any material extent. The interests touched are said to be worth no more than $50,000, which is an insignificant sum to a corporation with $36,000,000 capital and $25,000,000 surplus.

Intense Heat in the East.

NEW YORK, June 11.—Instead of abating, the torridity, which came upon the city Thursday, increased today, and to this discomfort was added a greater degree of humidity than had prevailed during the two preceding days. The heat on the streets registered 104 degrees, but in the signal tower it was only 91. Numerous prostrations are reported, some of which are likely to result fatally. The forecast is for continued higher temperature.

Back to the Wages of 1893.

READING, Pa., June 1.—The Reading Iron Company today restored the wages of 500 tube-works employes to what they were in 1893. This is equal to 10 per cent increase.

Our Metal Production.

NEW YORK, June 1.—According to the Engineering and Mining Journal, the total value of the mineral and metal production of the United States in 1893 and 1894 was: 1893, $615,846,806; 1894, $55,272,902, a decline of about $62,573,904, or 9 per cent. This great falling off was, however, due far more to lower prices than a lessened quantity of the product. Thus the value of the coal production declined last year $13,783,828, or 7 per cent, while in quantity it fell off only 6,220,970 short tons, or 3½ per cent.

The New York Associated Banks.

NEW YORK, June 1.—Following is the weekly bank statement:

Reserve, increase	$41,246,100
Loans, "	1,036,600
Legal tender, increase	1,271,000
Deposits, increase	4,032,600
Circulation, decrease	65,200

The banks now hold $41,221,250 in excess of requirements.

Silver, Tariff and Income Tax.

NEW YORK, June 1.—The World tomorrow will publish a telegraphic poll of the next congress, as far as obtained, on the silver, tariff and incom-tax questions. The World sums up the result as follows: In a general way, it may be said that out of 116 members, who gave unequivocal answers to the silver question, 55 are in favor of free coinage; 44 favor bimetalism generally, with the proviso of an international agreement. Only 17 can be fairly classed as favoring a single gold standard, and the attitude of some of these even is not definite. The South and far western states are almost unanimous for free coinage; the Central lean toward silver, with international qualifications, and it is only in New York, New England and adjacent Eastern states that there are any avowedly gold-standard men. In regard to tariff there will be a small majority in favor of a change. The division is about equal on the income-tax question.

The Fiscal Year's Deficit.

WASHINGTON, June 2.—Treasury officials are now confident that the fiscal year, which ends a month hence, will show a deficiency of not more than $44,000,000, and possibly not more than $43,000,000, which is, at least, $5,000,000 less than was expected only a few weeks ago, and $3,000,000 or $4,000,000 less than the present figures. It is shown that the pension payments during June will be at least $25,000,000 less than for May, and that the payments on account of interest will also be reduced $1,500,000. With an increase in the internal revenue of $3,000,000, it is confidently expected that next month will show a small surplus.

Short Wheat Crop in Indiana.

INDIANOPOLIS, June 2.—For the last four days the temperature has been 96. There is no hope for more than half a crop this year.

One of the Hottest Ever Known.

SAVANNAH, Ga., June 2.—This was one of the hottest days ever known in Savannah. At Millen the temperature reached 104 degrees by the official weather bureau report, and advices from other points indicate similar temperatures. In Savannah the maximum was 98.

California Enjoying Fine Weather.

SAN FRANCISCO, June 2.—While the section of the country east of the Rocky mountains has been sweltering under the sun's fierce heat, the Pacific coast and California has been enjoying the finest kind of weather. The hottest place in the state today was Yuma, where the thermometer registered 88. In San Francisco the maximum temperature was 64 and the minimum was 43. At Los Angeles it was 74 and at San Diego 68.

Pioneer Missionary Laid to Rest.

SALEM, Or., June 2.—The remains of the pioneer missionary, Josiah L. Parrish, were laid to rest here this afternoon. The funeral services were held in the chapel of the Willamette university, of which Mr. Parrish had for years been honorary president. The casket was covered with floral tributes, and in front were fitting emblems of his life, a sheaf of ripened grain and an ear of corn. The pallbearers were: General W. H. Odell, Dr. L. L. Rowland, A. Bush, John Minto, Geo. Litchfield and F. R. Smith. The interment was made in the Lee Mission cemetery.

Great Fire in the Oil Region.

BRADFORD, Pa., June 3.—The woods about Ormsby are on fire, and a number of oil rigs have been destroyed. All communications have been cut off. Fires are reported along the New York, Lake Erie & Western road as far as Allegheny. On the Buffalo, Rochester & Pittsburg, at Dent, the property the Emery Oil Company is threatened. Oil rigs and millions of feet of standing timber all through that section have been burned. The most fear is felt at Rutherford Run, where 1000 pounds of nitro-glycerine is stored.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

The Central American Alliance.

GAUTEMALA, June 3.—The programme of the Central American union conference includes modifying the customs regulations by giving free entry to products of countries in the union; foreign goods being subjected to full duties at the port of entry, with extra duties when thereafter removed to another country in the union; also an offensive and defensive alliance.

Hostilities Begun in Formosa.

YOKOHAMA, June 3.—A dispatch from the island of Formosa says the Japanese imperial guard landed near Kee Tung on Wednesday night, and that fighting ensued. The Chinese lost heavely.

Olney to be Gresham's Successor.

WASHINGTON, June 3.—It is understood tonight on good authority that the president announced at this afternoon's cabinet meeting that he had decided to appoint Olney as secretary of state. Uhl will continue as assistant. It is not decided who will succeed as attorney-general, but probably it will be an Eastern man. It is understood that the portfolio of state was tendered to Whitney, but he declined.

Presidential Possibilities.

LITTLE FALLS, N. Y., June 3.—Senator Squire, of Washington, was interviewed today, and said that he rather favored Reed for president. Regarding the other candidates discussed in his state he said: "We hear much said of Allison, Harrison, Morton and McKinley. I do not think Morton's age would prevent his becoming a candidate. Allison has a large following in the West; so has McKinley, and at the same time so has Harrison. Silver will be the great question."

Ex-Senator Ingalls May Come.

SALEM, Or., June 3.—John J. Ingalls has accepted an invitation to speak at the fair. His subject will be "Taxation."

Seven Deaths in Philadelphia.

PHILADELPHIA, June 3.—There were seven deaths today from the hot weather and fully 50 prostrations, a third of whom were made up of firemen, who held their annual parade today, marching under the broiling sun for several hours. The fatalities were principally infants and old persons. The maximum was 96, at 3 p. m. About 7 p. m. a thunderstorm came up, and tonight it is 78.

Fell to His Death from a Bridge.

LA GRANDE, Or., June 4.—This morning Ed. Brown, a member of the section gang west of Hilgard, was instantly killed by falling from the bridge at Old Pelican station, 10 miles west of this city.

Is Life Worth Living?

That depends upon the Liver. If the Liver is inactive the whole system is out of order—the breath is bad, digestion poor, head dull or aching, energy and hopefulness gone, the spirit is depressed, a heavy weight exists after eating, with general despondency and the blues. The Liver is the housekeeper of the health; and a harmless, simple remedy that acts like Nature, does not constipate afterwards or require constant taking, does not interfere with business or pleasure during its use, makes Simmons Liver Regulator a medical perfection.

"I have tested it personally, and know that for Dyspepsia, Biliousness and Throbbing Headache, it is the best medicine the world ever saw."—H. H. Jones, Macon, Ga.
