Japanese Warships to Visit San Francisco—A General Advance in Wages.

[From the Oregonian, Sun and Statesman.]

National Republican League Convention.

CLEVELAND, June 20.—The white flag of truce went up in the committee on resolutions today, and accepted terms of honorable surrender.

The National Republican League will doubtless accept in convention tomorrow the terms of peace that have been arranged between silver and silver antagonists.

After the longest session in the history of conventions the committee on resolutions will report tomorrow the following as the result of its deliberations: WHEREAS, This convention has not been authorized by the republicans of the country to formulate or announce a platform for the republican party, the national convention of the party being vested with the sole and exclusive jurisdiction to nominate candidates and to determine the party's position on public questions; therefore, be it Resolved, That as republicans, possessing full confidence in the wisdom and patriotism of our party, we disclaim any jurisdiction to formulate a national platform for the party.

American Silver to Pay the Japan Indemnity.

WASHINGTON, June 20.—Negotiations have been opened in the United States having in view the raising of the 200,000,000 taels by China to pay the Japanese indemnity. The legations here have been informed of the general features of the transaction. The indemnity is payable in Chinese taels only so far as value is concerned.

Baltic and North Sea Canal Opened.

BRUNSBUTTEL, June 20.—At 3:45 a. m. today the imperial yacht Hohenzollern, with Emperor William and the princess on board, entered the western gate of the Baltic and North sea canal, in order to formally open it. The gate was magnificently decorated. The Hohenzollern passed through amid ringing cheers, bands played the national anthem, and crowds joined heartily in the chorus. His majesty stood on the deck and bowed thanks with visible emotion. At 4 o'clock the Hohenzollern severed the threads stretched across the canal and then commenced the passage into the new waterway.

Kicked to Death by a Horse.

NORTH YAKIMA, Wash., June 2.—Emily Anderson, a 14 year old girl of this city, was thrown from a horse this morning and kicked in the head by the animal. She was found dead 15 minutes after being seen by a rancher, near Cowychee. Her mother was driving a buggy behind her, and came up within an hour after the girl had left her, only to find her daughter's dead body. The blow prostrated her. The girl had asked permission to ride instead of driving with her mother, and the accident occurred as they were enroute to this city from a ranch they owned.

Japanese Warships Coming.

SAN FRANCISCO, June 21.—Private letters received in this city state as soon as Japan's troubles in Formosa shall have been settled Admiral Ito will be sent to San Francisco with the Matsushima and two or three other vessels of his famous fleet.

German Canal Christened Kaiser Wilhelm.

HOLTENAU, June 21.—After visiting the Russian cruiser Rurik, at 9:30 Emperor William laid the last stone of the North sea and Baltic canal in the presence of thousands of spectators. The weather was brilliant, and the ceremony took place in the open air, and not in the lighthouse, as first contemplated. Taking the mallet, the emperor said: "In memory of Emperor William the Great I christen this canal the Wilhelm canal." His majesty then tapped the stone three times with the mallet saying: "In the name of the triune God, in honor of Emperor William, to the weal of Germany and the welfare of nations."

Interest on the National Debt.

NEW YORK, June 21.—Interest on a large part of the national debt matures July 1, and the treasury department will pay out that day, $5,596,000 interest on the fours, and $1,938,705 interest on the bonds issued in aid of the Pacific railroads. The total disbursements for interest and dividends, July 1, in this city, will, it is estimated, reach $75,000,000.

The Business Outlook Brightening.

NEW YORK, June 21.—R. G. Dun & Co's Weekly review of Trade tomorrow will say: From all parts of the United States the best advices obtainable tell of a rising tide of trade and industry, which threatens to mount too far and too fast. The volume of all business is by no means equal to that of 1892 as yet, though in some important branches it is larger than any other year. The influences of tremendious power contributing to the rise are encouraging crop news and confident replenishing of stocks, which have been for two years depleted to the utmost. Excepting too heavy rains in Texas, crop reports this week have been highly encouraging. Future injury to cotton cannot be predicted, but as yet nothing indicates anything below 7,500,000 bales, which is not supposed to threaten famine if the commercial and mills' stocks are remembered, now exceeding by 2,500,000 bales a full consumption until September.

Work of the Lick Trust Ended.

SAN FRANCISCO, June 21.—The famous Lick trust, organized in 1875, has come to an end. With the payment of $181,000 by the Fair estate to the trustees yesterday, the last act of the judiciary agents of the old James Lick was accomplished. All that now remains for the trustees to do is to get the court's instructions for turning over to the residuary legatees the funds on hand and secure the judicial decree for their discharge. The principal public legacies in Lick's will were: Lick observatory on Mount Hamilton.....$700,000
School of Mechanical arts 540,000
Old Ladies' Home of San Francisco..... 100,000
Lick Free Baths..... 150,000
Monuments at city hall and park..... 160,000

Exports and Imports at New York.

Hitch In Negotiating Chinese Loan.

LONDON, June 22.—The Pall Mall Gazette says, refering to the efforts being made to borrow money for China: "The hitch in the Chinese loan is due to the fact that before the Russo-Chinese arrangement had been effected a contract for a loan had been signed with a large London bank, which placed £1,000,000 at the immediate disposal of China, and the bank was given the option of arranging the loan which was to follow. Russia learned of these negotiations and brought her influence to bear to undo them. It is doubtful whether she will succeed, as the contract cannot be set aside with impunity, and it is the duty of Great Britian to see the rights of her citizens protected."

Swartz Committed to Prison.

SALEM, Ore., June 22.—Today the court refused to grant a new trial in the case of Alonzo Swartz. Sentence was pronounced and the prisoner was taken to the penitentiary to spend the rest of his natural life. One of the jurors who sat in the Swartz case stated since that, 20 years ago, he forced Swartz to put away a gun he had drawn on his wife.

Hop Contracts in Clackamas.

OREGON CITY, June 22.—Two more contracts from Aurora have been filed here, but these dispose merely of this year's crop at 8 cents a pound. The amount covered by the two contracts is 14,000 pounds.

Rosebery Resigns the Premiership.

LONDON, June 23.—The court circular tonight contains the following: "Earl Rosebery, K. G., first lord of the treasury and lord president of the council, arrived at the castle and tendered his resignation to her majesty, by whom it was accepted."

Schofield Started for Portland.

SAN FRANCISCO, June 23.—Lieutenant-General Schofield left for Portland this evening to continue his tour of inspection. On his arrival he will inspect Vancouver barracks and then visit Fort Canby and inspect the improvements on the Columbia river, after which he will go to Fort Walla Walla.

Explosion on an Excursion Steamer.

CHICAGO, June 23.—By the explosion of a steam valve in the whaleback steamer Christopher Columbus, off Waukegan, Saturday night, two men were killed 13 dangerously or painfully injured.

The London Money Market.

LONDON, June 23.—The money market is in a helpless condition A great amount of money cannot find borrowers. The end of the half year will not be gotten over easily, and hopes of relief from improving trade are shattered by the political crisis. The market has been quiet, even for Ascot week. A speculative demand for the best securities and the repurchases of South African shares have been the only features. This dullness will undoubtedly increase in view of the coming dissolution. American railways were weak, except for the bond issues. This was chiefly due to the absence of demand in New York.

The Emperor Visits the San Francisco.

KIEL, June 23.—Emperor William visited the United States ship San Francisco, flagship of the American squadron, here today He chatted pleasantly with Admiral Kirkland and the officers, and expressed his admiration of the American warships present and his acknowlegeument of their participation in the Kiel fetes.

Fish Trap Pirates Arrested.

ASTORIA, Or., June 23.—Fish Commissioner McGuire and Sheriff Hare partrolled the river this morning. They found five traps running on the Washington shore and made two arrests. They will lay information against all before the grand jury tomorrow. No effort was made by the Washington authorities to arrest McGuire and Hare.

Lincoln has a Costly Fire

LINCOLN, Neb., June 23.—Lincoln battled from midnight until daylight this morning with the most stubborn and costly fire that has visited the city for five years. It originated in K. L. Clark's four-story brick wholesale drug house and 30 minutes after the alarm was beyond control, though the firemen managed to confine it to the one building. The total loss on building and stock is from $125,000 to $150,000.

A General Advance in Wages.

CHICAGO, June 24.—The wages of not less than 250,000 men in the United States have been advanced materially within the last 90 days. Careful inqury throughout the country indicates an advance averaging 11½ per cent. The Chicago Tribune has compiled a list which embraces more than 250 firms which have within the last few weeks advanced the wages of their employes.

Fighting in Turkish Macedonia.

SOFIA, June 24.—The reports of fighting between Turkish troops and rebels in Macedonia are confirmed. One band surrendered the troops, and many were killed and wounded. The troops are being re-enforced.

Salisbury England's Premier.

LONDON, June 24.—The Marquis of Salisbury made his visit to the queen at Windsor today, and he agreed to form a ministry, but there exists some doubt in the public mind as to whether the conditions he attaches to his acceptance of the task will be consented to by the outgoing liberal ministry. It is said that he will demand that there be no opposition to voting estimates before the proposed dissolution of parliament, and that none of the members of the cabinet chosen by himself shall be opposed for re-election at the coming election. Mr. Gladstone was in consultation with Lord Rosebery and other leaders of the liberals until a late hour tonight, but nothing has been given out as to their decision on these questions. Mr. Asquith, the home secretary, and Lord Tweedmouth, the lord privy seal, also attended the conference.

The Work of Incendiaries.

ASTORIA, Or., June 24.—David Burnside's residence on Bear creek was burned at 2 o'clock Sunday afternoon, entailing a loss of $500, none of which was covered by insurance. A near-by neighbor of Burnside, Mrs. Hanson, saw the flames and started for assistance, but was intercepted by a masked man and turned homeward. Mrs. Brinkoff, another neighbor, also tried to obtain assistance, but she, too, encountered a masked man, armed with a gun, and was compelled to retrace her steps. Sheriff Hare and posse are now scouring the country and it expected to effect a capture.

Accident to an Albany Man.

ALBANY, Or., June 25.—O. A. Archibald and C. E. Hawkins, of this city, went fishing up the North Santiam yesterday. They were riding in a buggy, Hawkins holding a loaded shotgun. The buggy ran into a chuck hole, throwing Hawkins partly out. The gun fell upon the axle and was discharged, blowing Hawkin's right hand off, and sprinkling both their faces with shot. Hawkins was brought to Albany and had his hand amputated.
