Austin, Tex., Oct. 1 .- The following from there is direct from the governor's office, and is self-explanatory:

Governor Culberson stands firm in his position against prizefighting. He intends to suppress it and will exert every power of his office to that end.

Ex-Governor O. M. Roberts has written Governor Culberson, commending the legislature passing the law with the requisite two-thirds vote to give it "What we want done, we to immediate effect. Inquiries sent to sist upon having done, not by futile members, so far as heard from, indicate representations to Peking, but by gothat a law to take immediate effect ing to the spot in question and seeing making prizefighting a felony, will go through by an overwhelming majority. It is thought, however, by those favor-ing the fight, that Governor Culberson should have called the legislature after Judge Hurt's decision and before the fight, as the club has already spent thousands of dollars. He waited, however, three weeks, and to prevent it now will cause serious loss to innocent parties and be an act of injustice. Several members of the legislature are known to entertain this view, and it may be they can muster enough force to prevent a two-thirds majority. Eleven senators can defeat the emergency clause, and it is well known the senate and governor were not on good terms at the adjournment of the legislature last winter.

Chicago, Oct. 1.-The Tribune will tomorrow publish interviews with a number of Texas senators and representatives giving their position regarding the passage of the law with an emergency clause to prevent the Corbett-Fitzsimmons fight. They are without exception favorable to the law. They are

Another Rich Vein of Gold Ore. Rapid City, S. D., Oct. 1.-Another vein of gold ore was discovered last of the Storm Hill group of mines, which were sold recently to St. Louis parties. The miners engaged in stripping the ground for hydraulic mining in the bonanza bar uncovered the ledge of rich ore fourteen feet in width. That panned out by mortar test is of heavy shot gold. The find is of such value that work on the placer ground will be discontinued for the time, and the entire time of the miners will be devoted to prospecting for gold ledges. The district where this property lies is twelve miles from Rapid City, and the same distance from Keystone.

WAR WITH ENGLAND

That Is What the Irish Convention Declares For.

COUNTRY'S HISTORY REVIEWED

Intense Hatred for the British Govern ment Shown in the Declaration of Principles Adopted.

Chicago, Sept. 28.-At today's sion of the Irish convention, O'Neill Ryan, of St. Louis, chairman of the committee on resolutions, read the following declaration of principles:

"The people of Ireland are a sovereign people. Ireland is by nature separate from every other country, and liberty is the birthright of her people. Ireland was known throughout Europe as a nation long before the dawn of \$3.75. Christianity, and was the home of civilization when England was still barbarous. England's claim to authority over Ireland originated in force, and has been maintained by corruption and coercion. Her title by conquest has never been perfected, inasmuch as the Irish people have continuously, by constitutional agitation and revolutionary movements, resisted England's power and endeavored to destroy her unlawful supremacy,

"Ireland is deprived of almost every civil right which the American people most dearly cherish. Unexampled cruelty and brutal vindictiveness have been the distinguishing features of En-glish rule in Ireland. England has destroyed Ireland's desires and ruined her commerce; she has placed upon her statute books laws making it a crime to educate Irish children; she has burned Ireland's schoolhouses and destroyed her churches; she has driven into exile, or left to perish in her dungeons, thousands of men whose only crime was to love Ireland.

"Every measure of the last century looking toward the legislative independence of the Irish people has either suffered defeat in the commons or been arbitrarily rejected by the lords. England has violated every treaty, and broken every pledge, and with almost every year of the century she has imposed upon Ireland brutal laws of coercions, and one of the most drastic character is now upon her statute books. "To the pleas of the people for jus-

tice, and their prayers for her mercy, England has responded with the scourge and scaffold, and yet today, Ireland, enthralled, but not enslaved; crushed, but not conquered, is in spirit a nation. It has become evident after many years of earnest endeavor to obtain a measure of independence from England by peaceful agitation, that appeals to reason for justice are futile. It is left, therefore, for men of the Irish race to porclaim again the truth recorded by all history, that the liberties of a people and the independence of a nation cannot be achieved by debate, but must be won upon the field of battle, and we declare our belief that the men of Ireland who are being sides, driven into exile or into the graves of serfs in their native land by English lard, pure, in tins, 9% of loc; pigs serfs in their native land by English 80s, 43.50; pigs' feet, 40s, 63.5; misgovernment are entitled by the laws of God and man to use every means in their power to drive from their country the tyrant and usurper, and we believe Ireland has a right to make England's difficulty her opportunity, and to use all possible means to create that difficulty.

Distinct from the "declaration of principles," Chairman Ryan submitted on behalf of the resolutions committee three separate resolutions, as follows:

"Resolved, That we earnestly protest against the continued incarceration in English prisons of Irish patriots; that we consider it inhuman and against the policy of civilized nations to keep in prison men who have acted in the interest of their country and human liberty, and that the release of these men is imperatively demanded, not only by the Irish people, but by civilization.

'Resolved, That this convention expresses the bope that the people of Cuba, who are struggling for political independence and the establishment of a republic, will be successful, and we extend them our heartfelt sympathy.

"Resolved, That this convention, recognizing the importance of the Irish nation of preserving the language, literature and music of the people, com mends the work now being done by the Gaeile League and National Literary Society, in Ireland, and by the Gaelic societies in this country, and earnestly trusts that our people will give them hearty co-operation and a generous support."

The declaration of principles created decided enthusiasm, and was unanimously adopted by the convention as submitted by the committee. The three resolution were each read separately, and were warmly indorsed by
